PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to “India” are to the Republic of India and all references to the “Government” are to the Government of India.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditors, set out in the section titled ‘Financial Statements’ beginning on page 223 this Prospectus. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12 month period ended March 31st of that year. In this Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company’s financial data. Accordingly to what extent, the financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “Risk Factors”, “Our Business”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled ‘Financial Statements’ beginning on page 154 of this Prospectus.

CURRENCY OF PRESENTATION

In this Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’ / ‘Million’ / ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn./ Billions’ means ‘one hundred crores’.

INDUSTRY & MARKET DATA

Unless otherwise stated, Industry & Market data used throughout this Prospectus have been obtained from internal Company reports and Industry publications inter alia Planning Commission of India, Economic Survey, Industry Chambers and Associations etc. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although we believe that industry data used in this Prospectus is reliable, it has not been independently verified. Similarly, internal Company reports, while believed by us to be reliable, have not been verified by any independent sources.

Further the extent to which the market and industry data presented in this Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENT

This Prospectus contains certain “forward-looking statements”. These forward looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following:-

General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;

- Changes in laws and regulations relating to the sectors/areas in which we operate;
- Increased competition in industry which we operate;
- Factors affecting the industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of Interest with affiliated companies, the promoter group and other related parties; and
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “Risk Factors” and chapter titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 17 and 186 respectively of this Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Prospectus. Neither we, our Directors, Lead Manager, Underwriters nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the LM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION II – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 96, “Our Industry” beginning on page 87 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 186 respectively, of this Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively;*
- *Some events may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviation” beginning on page 3 of this Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

Business Risk

- Our Company, one of its Promoter, one of its Directors and one of our Group Company are currently involved in income tax related proceedings and claims which are currently pending at jurisdictional income tax authorities. Any adverse rulings or decisions in such proceedings by such authorities against Our Company may render us/them liable to liabilities and penalties and may adversely affect our business and results of operations.*

Our Company, one of its promoters, one of its directors and one of the group companies are involved in certain income tax related proceedings and claims. They have been issued notices under Income Tax Act, 1961 for outstanding demands and the same are currently pending at jurisdictional Income Tax Authorities. Further, an application bearing reference no. 3 of 2010 was made by us against Regional Director of ESI Corporation, Ahmedabad and Labour and Employment Department, Gandhinagar before the Employees State Insurance Court at Rajkot under Section 75 and 77 of the Employee State Insurance Act, 1945 along with an Stay Application. The matter is currently pending.

We cannot assure you that, we, our promoters, our directors or Group Company may not face legal proceedings in future; any adverse decision in such legal proceedings may impact our business and results of operations. For further details in relation to legal proceedings involving our Company, Promoter, Director, Group Company please refer the chapter titled “*Outstanding Litigations and Material Developments*” on page 196 of this Prospectus. 2. ***The industry segments in which we operate is majorly dominated by Amara Raja Batteries Limited (“ARBL”) and Exide Industries Limited (“Exide”).***

The market for our products is competitive on account of both the organized and unorganized players. Brand name and pricing play a key role in Indian market. We majorly manufacture industrial, Inverter and UPS, automotive and solar batteries and these segments are majorly dominated by ARBL and Exide as they have a considerable domestic market share. We compete for technical competence, quality of products, distribution network, pricing and timely delivery with ARBL and Exide. They may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive which, may affect our margins, our business operations and our financial condition.

3. ***A significant portion of our revenues is dependent on Amara Raja Batteries Limited (“ARBL”). Any failure to fulfil the requirements may adversely affect our revenues, result of operations and cash flows.***

For the financial year ended March 31, 2017 sale of batteries to ARBL amounted for 47.94% of our Revenue from operations. Our business from ARBL is dependent on our continuing relationship with them, the quality of our products and our ability to deliver on their orders. There can be no assurance that ARBL will continue to do business with us in the future on commercially acceptable terms or at all. If ARBL does not continue to purchase products from us, or reduce the volume of products purchased from us, our business prospects, results of operations and financial condition may be adversely affected. Significant dependence on ARBL may increase the potential volatility of our results of operations and exposure to individual contract risks. Further, any deterioration in brand image of ARBL or issue in manufacturing of their products may hinder our sales. To the extent that we are unable to effectively manage our operations and risks such as the above, we may be unable to grow or maintain our sales and profitability, or we may be subject to additional unanticipated costs or legal or regulatory action. As a consequence, our business, financial condition, results of operations and cash flows may be adversely affected.

4. ***Ours is a High Volume-Low Margin Business***

Our Company derives revenue from sale of products in Domestic and International Market. We are currently in growing phase of business cycle and our inability to regularly grow our turnover and effectively execute our key business processes could lower our profitability and hence adversely affect our operating result and financial conditions. Due to the nature of the products we sell, we may not be able to charge higher margins on our products. Hence, our business model is heavily reliant on our ability to effectively grow our turnover and manage our key processes including but not limited to raw material procurement, timely sales / order execution and continuous cost control of non-core activities. For the financial year 2016-17, 2015-16, 2014-15, 2013-14 and 2012-13 our revenue was

Rs. 5,481.20 lakhs, 4,002.91 lakhs, 3,748.10 lakhs, Rs. 4,882.62 lakhs and Rs. 6,188.69 lakhs respectively. Our Profit before Tax Margin and Profit after Tax Margin were lower than 2% for each period. Our growth strategy is involves risks and difficulties, many of which are beyond our control and accordingly, there can be no assurance that we will be able to implement our strategy or growth plans, or complete them within the timelines. Further, we operate in a dynamic industry, and on account of changes in market conditions, industry dynamics, technological improvements or changes and any other relevant factors, our growth strategy and plans may undergo changes or modifications, and such changes or modifications may be substantial, and may even include limiting or foregoing growth opportunities if the situation so demands. For further details regarding the discussions and explanations for our past results, please refer to the chapter titled — “*Management’s Discussions and Analysis of Financial Condition and Results of Operations*” on page 186 of this Prospectus.

5. ***The shortage or non-availability of power facilities may adversely affect our manufacturing processes and have an adverse impact on our results of operations and financial condition.***

Our manufacturing processes requires substantial amount of power facilities. The quantum and nature of power requirements of our industry and Company is such that it cannot be supplemented/ augmented by alternative/ independent sources of power supply since it involve significant capital expenditure and per unit cost of electricity produced is very high in view of increasing oil prices and other constraints. We are dependent on State Government for meeting our electricity requirements. Any defaults or non-compliance of the conditions may render us liable for termination of the agreement or any future changes in the terms of the agreement may lead to increased costs, thereby affecting the profitability. Further, since we are majorly dependent on third party power supply; there may be factors beyond our control affecting the supply of power.

Any disruption / non availability of power shall directly affect our production which in turn shall have an impact on profitability and turnover of our Company.

6. ***Our costs of complying or failure to comply with existing and future environmental laws could adversely affect our business and results of operations.***

Our factory and business are subject to national and state environmental laws and regulations, which govern the discharge, emission, storage, handling and disposal of a variety of hazardous substances that may be used in or are result of operations. Environmental regulation of manufacturing batteries in India may become more stringent, and the scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. In the case of any change in environmental, or pollution regulations, we may be required to incur significant amounts on, among other things, environmental monitoring, pollution control equipment, hazardous waste and emissions management. We may also be required to bear additional expenditure to establish additional infrastructure, such as facilities for monitoring pollution impact and effluent discharge. Such additional costs may adversely affect our results of operations. In addition, failure to comply with environmental laws may result in the assessment of penalties and fines against us by regulatory authorities, including the cancellation of environmental approvals.

7. ***Lead and Lead Alloy, raw materials used in manufacturing of battery are hazardous in nature. It is harmful for health of our workers and in the event of any accidents involving such hazardous material, our Company may be held liable for subsequent damages and litigations.***

Improper or negligent handling while manufacturing and/or storing lead and lead alloy as they are hazardous material. It may cause personal injury or loss of life and may further lead to severe damage or destruction to property or equipment and environmental damage and may result in the suspension of operations and the imposition of civil and criminal liabilities. Further, we depend on third party transporters to transport these hazardous materials. Any mishandling of hazardous substances by these carriers could affect our business adversely and may impose liabilities on our Company. Further, inorganic lead dust can be absorbed into the body by inhalation and ingestion and once in the blood stream, lead is circulated throughout the body and stored in various organs and body tissues which affects is the nervous system. Lead exposure may also cause anemia, a low number of red

blood cells which is significantly harmful for our labours. Liabilities incurred as a result of these events have the potential to adversely impact our business operations and financial position.

Management Perception: The management believes that its provides necessary protective equipment to workers for smooth operations and have installed air pollution control devices to avoid scattering of air. The Company has installed an effluent treatment plant for neutralization of acid from discarded battery and hazardous waste recovered from recycling and effluent treatment plant is sent to TSDF site by using third party transport.

8. *We are exposed to conditions affecting the end user industries and markets for automobile, inverter/ UPS and solar power industry*

We manufacture Batteries which is utilised by OEM manufacturers of automobile, Inverter and UPS applications, solar power projects, etc. These batteries are used by many industries and sales of our products are directly dependent on these industries. The end user industries and geographic markets which our products are targeted at may be impacted by global economic or industry conditions, including seasonal trends, volatile fuel prices; rising employee costs and challenges in maintain amicable labour relations as well as compliance with evolving regulatory requirement, changing power and electricity requirement, government initiatives, trade agreements and other factors. Any significant industry downturns in such industries, as well as economic downturns in our geographic markets may significantly affect our revenues from sale of batteries across periods and geographies.

9. *Our manufacturing facility is currently underutilized.*

Our manufacturing facility is located at Jamnagar is currently underutilized. During the year ended March 31, 2017 our facility was utilized only to the extent of around 30% for manufacturing of batteries. Though we are increase in utilization of our capacity, there can be no assurance that we shall be able to grow our revenues as projected. Any underutilization of our manufacturing facility for a prolonged period may result in increased fixed costs and adversely affect our result of operations.

10. *We have in the past entered into related party transactions and may continue to do so in the future.*

Our Company has entered into various transactions with our Promoters, Promoter Group, Directors, their Relatives and Group Company. While we believe that all such transactions are conducted on arms length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions were not entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in future. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to chapter “*Related Party Transactions*” beginning on page 152 of the Prospectus.

11. *Our Company has made an error while filing return of allotment under Companies Act. Such lapses may attract some penalties.*

Our Company has made typographical errors while filing return of allotment of shares under the Companies Act with the Registrar of Companies. The names of actual allottee were Mulji Pansara HUF and Amratlal Pansara HUF while in the allottee list the same shares were erroneously included in the folio of Mulji Pansara and Amratlal Pansara. Though, no show cause notice in respect of the above has been received by the Company till date; any penalty imposed for such non-compliance in future by any regulatory authority could affect our financial conditions.

12. *Our Group Company Bluestar Wind Energy Private Limited losses in the previous financial years.*

Sustained financial losses by our Group Company may not be perceived positively by external parties such as customers, bankers, suppliers etc, which may affect our credibility and business operations. Our Group Company, Bluestar Wind Energy Private Limited, has incurred losses in previous years:

Bluestar Wind Energy Private Limited

(Rs in Lakhs)

Particulars	2013-14	2014-15	2015-16
Paid Up Capital	1.00	1.00	1.00

Particulars	2013-14	2014-15	2015-16
Reserves and Surplus	1.15	(1.86)	(2.55)
Net Asset Value (In Rs.)	21.5	(8.60)	(15.54)
Total Revenue	17.51	0.04	0.06
Profit/Loss after tax	0.32	(0.70)	(0.68)

There can be no assurance that our Group entity(ies), or any other ventures promoted by our Promoter, will not incur losses in any future periods, or that there will not be an adverse effect on our reputation or business as a result of such losses.

13. *We are exposed to foreign currency exchange rate fluctuations, which may harm our results of operations, impact our cash flows and cause our financial results to fluctuate.*

We are exposed to foreign currency exchange fluctuations as our Company is engaged in manufacturing of battery and its components which are exported to Uganda, Yemen, Lebanon and Nepal. The exchange rate between the Indian Rupee and these currencies, primarily the USD except Nepal, has fluctuated in the past and our results of operations and cash flows have been impacted by such fluctuations in the past and may be impacted by such fluctuations in the future. For example, during times of strengthening of the Indian Rupee, we expect that our overseas sales and revenues will generally be negatively impacted as foreign currency received will be translated into fewer Indian Rupees. However, the converse positive effect of depreciation in the Indian Rupee may not be sustained or may not show an appreciable impact in our results of operations in any given financial period, due to other variables impacting our business and results of operations during the same period.

We may, therefore, suffer losses on account of foreign currency fluctuations for sale of our products to our international customers, since we may be able to revise the prices, for foreign currency fluctuations, only on a periodic basis and may not be able to pass on all losses on account of foreign currency fluctuations to our customers. Our Company offsets this risk of foreign fluctuation by way hedging.

14. *We are exposed to warranty claims from our customers.*

Our Company is exposed to warranty claims from our customers and such claims from customers may reduce our profitability. Our batteries are subject to warranties against manufacturing defects and in the event of claimed defects or non-performance of our batteries; we have to accept claims and provide solution or replacement of such defect batteries. We might also experience a material number of warranty claims due to defects in our products which could adversely affect our reputation and demand for our products. In the event that defects, or warranty claims become more frequent, there may be an adverse effect on our operating results and financial condition.

15. *We do not own the land on which our go down and sales office are located.*

We do not own the land on which our go down and sales office are located. The manufacturing facility situated at Hapa has various plots out of which our go down is taken on lease. Our sales office at Ahmedabad is also taken on lease. If we do not comply with certain conditions of the lease, the lessor may terminate the lease, which could have an adverse affect on our operations and there can be no assurance that renewal of lease agreement with the owner will be entered into. In the event of non-renewal of lease, we may be required to shift our registered office/manufacturing facilities/corporate office to a new location and there can be no assurance that the arrangement we enter into in respect of new premises would be on such terms and conditions as the present one.

16. *Our Company has not complied with certain statutory provisions under Companies Act. Such non-compliances/lapses may attract penalties.*

Our Company is required to make filings under various rules and regulations as applicable under the Companies Act, 2013 and under the applicable provisions of the Companies Act, 1956 some of which has not been done within the stipulated time period at some instances Due to these delays in filings, our Company had on several occasions paid the requisite late fees.

No show cause notice in respect of the above has been received by the Company till date, any penalty imposed for such non-compliance in future by any regulatory authority could affect our financial conditions to that extent. Such delay/noncompliance may in the future render us liable to statutory penalties and disallowing the resolutions, which may have consequence of violation of statutory provisions concerned.

While this could be attributed to technical lapses and human errors, our Company is in the process of setting up a system to ensure that requisite filings are done appropriately with the requisite timeline.

17. Our Company has negative cash flows from its operating activities, investing activities as well as financing activities in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.

Our Company had negative cash flows from our operating activities, investing activities as well as financing activities in the previous year(s) as per the Restated Financial Statements and the same are summarized as under:

Amount (Rs. In lakhs)

Particulars	For the year ended March 31,				
	2017	2016	2015	2014	2013
Cash Flow from / (used in) Operating Activities	264.47	134.62	1058.12	(289.99)	(43.76)
Cash Flow from / (used in) Investing Activities	(17.76)	(3.16)	(13.49)	(144.22)	81.02
Cash Flow from / (used in) Financing Activities	(254.57)	(223.19)	(1039.94)	382.35	(23.04)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

18. Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive. A significant portion of our working capital is utilized towards trade receivables and inventories. Summary of our working capital position is given below:-

Amount (Rs. In lakhs)

Particulars	As at March 31,				
	2017	2016	2015	2014	2013
A. Current Assets					
Inventories	565.45	691.62	904.85	1549.17	1080.43
Trade Receivables	555.64	862.65	972.27	581.23	762.97
Cash and Cash Equivalents	67.04	74.90	166.63	161.94	213.79
Short Term Loans & Advances	227.61	149.57	133.62	165.01	291.27
B. Current Liabilities					
Trade Payables	469.90	523.56	816.62	240.36	753.71
Other Current Liabilities	116.92	93.02	174.42	332.93	334.54
Short Term Provisions	248.42	172.77	110.17	44.75	59.59
Working Capital (A-B)	580.5	989.39	1076.16	1839.31	1200.62
Trade receivables as % of total current assets	39.25%	48.50%	44.65%	23.65%	32.49%
Inventories as % of total current assets	39.94%	38.88%	41.56%	63.04%	46.01%

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of current assets particularly trade receivables and inventories. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled “*Objects of the Issue*” beginning on page 76 of this Prospectus.

19. *We are dependent upon few suppliers for our raw material for our current manufacturing facilities. In an eventuality where our suppliers are unable to deliver us the required materials in a time-bound manner it may have a material adverse effect on our business operations and profitability.*

For the year ended March 31, 2017 our top 5 suppliers contributed around 62.02% of our total purchases.

In the event of a delay, inadequacy or default in deliveries by any of our vendors, we may not be able to source our raw material on an adequate and timely basis or on commercially acceptable terms. A major disruption to the timely and adequate supplies of our raw materials could adversely affect our business, results of operations and financial condition.

Any problems faced by our suppliers in their manufacturing facilities resulting in delays or non-adherence to quality requirements could adversely impact our ability to meet our customer’s requirements in time and our operations would be affected to the extent we are unable to line up supplies from alternate suppliers.

20. *Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.*

Modernization and technology upgradation is essential to provide better products. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing employed by us. Further, the costs in upgrading our technology could be significant which could substantially affect our finances and operations.

21. *Increases in the prices of raw materials and labour, their availability, quality and cost overruns could have adverse effect on us*

The key raw material required in manufacturing of Lead, Discarded Batteries, Plastic Container, etc. The cost of raw materials constitutes as significant part of our operating expenses. Our Company meets the requirement of raw materials by purchasing the same from local vendors or by importing the same. We also purchase scrap batteries from various dealers and process the same. Our Company also has a facility for processing of scrap battery and extracting lead out the process for manufacturing of new batteries which also helps solving environmental problems. We are vulnerable to the risks of rising/fluctuating prices of raw materials, which are determined by demand and supply conditions in Indian Market as well as foreign markets. Any unexpected price fluctuations after placement orders, shortage, delay in delivery, quality defects or any factors beyond our control may result in interruption in the supply of raw materials.

Our expenditure on materials consumed constitutes the most significant component of our operating expenses. In fiscal years 2015, 2016, 2017 expenditure on materials consumed constituted 78.06%, 66.49% and 75.61% respectively, of our total expenses, and 76.97%, 67.25% and 77.05% of our total revenues for such periods. Our financial condition and results of operations are significantly impacted by the availability and cost of our raw materials and incur the most significant cost to our business.

While we are not significantly dependent on any single raw material supplier and top 5 supplier for financial year 2016-17 contributed around 62.02% of total purchases, supply and pricing of our raw materials can be volatile due to a number of factors beyond our control, including global demand and supply, general economic and political conditions, transportation, competition, import duties, tariffs and currency exchange rates. We cannot assure you that we will be able to procure adequate supplies of raw materials in the future, as and when we need them on commercially acceptable terms. Further, we usually do not enter into long term supply contracts with any of our raw material suppliers and the absence of long term contracts at fixed prices exposes us to volatility in the prices of raw materials

that we require. While we endeavor to pass on all raw material price increase to customers, in the event that we are unable to compensate for or pass on our increased costs to end-consumers, such price increases could have an adverse impact on our result of operations, financial condition and cash flows.

22. ***We require a number of approvals, NOCs, licenses, registrations and permits in the ordinary course of our business. Some of these approvals are required to be transferred in the name of “Goldstar Power Limited” from its earlier names pursuant to conversion and name change of our company and any failure or delay in obtaining such approvals or renewal of the same in a timely manner may adversely affect our operations.***

We require a number of approvals, licenses, registrations and permits in ordinary course of our business. Additionally, we need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. We were a private limited company in the name of “Goldstar Battery Private Limited”. After complying with the relevant provisions and procedures of Companies Act, 2013, the Company was converted into public limited company, followed by the name change of the Company to “Goldstar Power Limited”. We shall be taking necessary steps for transferring the approvals in new name of our company. In case we fail to transfer/obtain the same in name of the company same may adversely affect our business or we may not be able to carry our business.

Any failure to apply for and obtain the required approvals, licenses, registrations or permits in a timely manner in future, or any suspension or revocation of any of the approvals, licenses, registrations and permits would result in a delay in the our business operations which could otherwise adversely affect our financial condition, results of operations and prospects of the Company. We cannot assure you that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business and results of operations.

23. ***Our Company has manufacturing facilities located at Hapa, Jamnagar, Gujarat. Any delay in production at, or shutdown of, or any interruption for a significant period of time, in this facility may in turn adversely affect our business, financial condition and results of operations.***

Our Company has manufacturing facilities located at Hapa, Jamnagar, Gujarat. Our success depends on our ability to successfully manufacture and deliver our products to meet our customer demand. Our manufacturing facility is susceptible to damage or interruption or operating risks, such as human error, power loss, breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, loss of services of our external contractors, terrorist attacks, acts of war, break-ins, earthquakes, other natural disasters and industrial accidents and similar events. Further, our manufacturing facility is also subject to operating risk arising from compliance with the directives of relevant government authorities. Operating risks may result in personal injury and property damage and in the imposition of civil and criminal penalties. If our Company experiences delays in production or shutdowns at any or all of these facilities due to any reason, including disruptions caused by disputes with its workforce or any external factors, our Company’s operations will be significantly affected, which in turn would have a material adverse effect on its business, financial condition and results of operations.

24. ***Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.***

We believe that the industry faces competitive pressures in recruiting and retaining skilled and unskilled labour. Our industry being labour intensive is highly dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. Our Company has taken efforts to maintain a lower attrition among the laborers by facilitating them with various in-house facilities and benefits to our employees. Thus, there can be no assurance that we

will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

25. *The shortage or non-availability of water facilities may adversely affect our manufacturing processes and have an adverse impact on our results of operations and financial condition.*

Our manufacturing process requires substantial amount of water, particularly distilled water for mixing with various chemicals and filling the batteries. Currently, our Company meets its water requirements from Jamnagar municipality. We have installed distillation machine at our factory for purifying the water and converting it to distilled water. We have not made any alternate arrangements for supply of water for our manufacturing facilities. Thus any unfavourable changes or modifications in the said agreement or termination of water supply may increase our cost of operations and adversely affect results of our operations.

26. *We could become liable to customers, suffer adverse publicity and incur substantial costs as a result of defects in our products, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.*

Any failure or defect in our products could result in a claim against us for damages, regardless of our responsibility for such a failure or defect. However, our products, processes and inputs have to undergo a special quality test conducted by in house laboratory to ensure that the same is of the requisite quality. Although we attempt to maintain quality standards, we cannot assure that all our products would be of uniform quality, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.

We provide warranty ranging from 18 months to 36 months depending on the type of product. Our industry has a trend of providing piece to piece warranty wherein in case of any defect during the warranty tenure, we are liable to provide a new battery in replacement of the defective one.

Also, our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products, including those arising from a drop in quality of merchandise from our vendors, mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations.

27. *Our operations may be adversely affected in case of industrial accidents at our production facilities.*

Usage of machinery, handling of dangerous materials like sulphuric acid by labour during production process or otherwise, lifting of materials by humans, cranes, heating processes of the furnace etc. may result in accidents, which could cause injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our operations. Though our plants and machinery and personnel are covered under insurance, occurrence of accidents could hamper our production and consequently affect our profitability.

28. *Our Company is dependent on third party transportation providers for the delivery of our goods and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.*

Our Company uses third party transportation providers for delivery of our goods. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation

strikes may have an adverse effect on our business. In addition goods may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

29. *Compliance with, and changes in, safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.*

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. We are also subject to environmental laws and regulations, including but not limited to:

- a. Environment (Protection) Act, 1986
- b. Air (Prevention and Control of Pollution) Act, 1981
- c. Water (Prevention and Control of Pollution) Act, 1974
- d. Hazardous Waste Management & Handling Rules, 2008
- e. Other regulations promulgated by the Ministry of Environment and Forests and the Pollution Control Boards of the state of Gujarat.

which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business.

The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non-compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations.

30. *Our insurance coverage may not be adequate.*

Our Company has obtained insurance coverage in respect of certain risks. We have taken group insurance policies i.e. standard fire and peril insurance, vehicle insurance and employee state insurance. These policies insure our assets against standard fire and special perils, machinery breakdown and marine cargo policy. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like earthquake, terrorism, etc. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

For further details, please refer chapter titled “*Our Business*” beginning on page 96 of this Prospectus.

31. *Our lenders have charge over our movable and immovable properties in respect of finance availed by us.*

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 1,337.23 Lakhs as on March 31, 2017. In the

event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse affect on business, financial condition or results of operations. For further information on the “*Financial Indebtedness*” please refer to page 194 of this Prospectus.

32. ***We are subject to certain restrictive covenants in debt facilities provided to us by our lenders. Our Company has not received “No-Objection” certificate from some of our lenders to undertake this Issue. Non receipt of such “No Objection” certificate could lead to non compliance of the terms of loan agreements entered into by our Company with said lenders.***

We have entered into agreements for availing debt facilities from lenders. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business.

Further, as on the date of the Prospectus, we have not received “No Objection” certificates from the lenders. We cannot assure you that the lenders will grant us the “No-Objection” certificate for this Issue. Non-receipt of such “No Objection” certificate could lead to non-compliance of the terms of loan agreements entered into by our Company with the lenders.

For further details in this regard, including approvals obtained from our lenders for this Issue, please refer to chapter titled ‘*Financial Indebtedness*’ beginning on page 194 of this Prospectus.

33. ***Our lenders have imposed certain restrictive conditions on us under our financing arrangements. Under our financing arrangements, we are required to obtain the prior, written lender consent for, among other matters, changes in our capital structure, formulate a scheme of amalgamation or reconstruction and entering into any other borrowing arrangement. Further, we are required to maintain certain financial ratios.***

There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. For further information, see the chapter titled “*Financial Indebtedness*” on page 194 of the Prospectus.

Though these covenants are restrictive to some extent for us, however it ensures financial discipline, which would help us in the long run to improve our financial performance.

34. ***We have taken guarantees from Promoters in relation to debt facilities provided to us.***

We have taken guarantees from Promoters in relation to our secured debt facilities availed from our Bankers. In an event any of these persons withdraw or terminate its/their guarantees, the lender for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information please see the chapter titled “*Financial Indebtedness*” beginning on page 194 of this Prospectus.

35. ***Our Company has unsecured loans which are repayable on demand. Any demand loan from lenders for repayment of such unsecured loans, may adversely affect our cash flows.***

As on March 31, 2017, our Company has unsecured loans amounting to Rs. 353.65 lakhs from related and other parties that are repayable on demand to the relevant lender. Further, some of these loans are

not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For further details of unsecured loans of our Company, please refer the chapter titled “*Financial Statements as Restated*” beginning on page 154 of this Prospectus.

36. ***We have not made any alternate arrangements for meeting our capital requirements for the Objects of the issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.***

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the issue. We meet our capital requirements through our bank finance, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled “Objects of the Issue” beginning on page 76 of this Prospectus.

37. ***Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.***

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “Dividend Policy” on page 153 of this Prospectus.

38. ***Within the parameters as mentioned in the chapter titled ‘Objects of this Issue’ beginning on page 76 of this Prospectus, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.***

We intend to use entire Issue Proceeds towards working capital and general corporate purposes. We intend to deploy the Net Issue Proceeds in financial year 2017-18 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “*Objects of the Issue*” beginning on page 76 of this Prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled ‘*Objects of the Issue*’ beginning on page 76 of this Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of this Issue.

39. ***Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.***

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

40. ***Our success depends largely upon the services of our Directors, Promoters and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.***

Our success is substantially dependent on the expertise and services of our Directors, Promoter and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

41. ***In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.***

Our Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and Key Managerial Personnel may also be interested to the extent of their shareholding and dividend entitlement in our Company. For further information, see “*Capital Structure*” and “*Our Management*” on pages 64 and 128, respectively, of this Prospectus.

42. ***Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.***

After completion of the Issue, our Promoters and Promoter Group will collectively own 72.90% of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares..

43. ***We may not be successful in implementing our business strategies.***

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

44. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

45. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.*

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

46. *Industry information included in this Prospectus has been derived from industry reports commissioned by us for such purpose. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us, or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Prospectus.

Issue Specific Risks

47. *We have issued Equity Shares in the last twelve months, the price of which may be lower than the Issue Price.*

Our Company has issued 65,00,000 Equity Shares in the last twelve months. For further details of Equity Shares issued, please refer to chapter titled, 'Capital Structure' beginning on page 64 of this Prospectus.

48. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares will be determined by Company in consultation with Lead Manager. This price is based on numerous factors (For further information, please refer chapter titled "Basis for Issue Price" beginning on page 82 of this Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

EXTERNAL RISK FACTORS

Industry Risks:

49. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

Other Risks

50. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under the Income-tax Act, 1961, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India except any gain realised on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the STT has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realised on the sale of shares held for more than 12 months to an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of shares on a stock exchange held for a period of 12 months or less will be subject to short term capital gains tax. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India. By way of the Finance Bill, 2017, the Government of India has proposed to introduce certain anti-abuse measures, pursuant to which, the aforesaid exemption from payment of capital gains tax for income arising on transfer of equity shares shall only be available if STT was paid at the time of acquisition of the equity shares. While the said provision has not been notified as on date, it is expected to take effect from April 1, 2018 and will, accordingly, apply in relation to the assessment year 2018-19 and subsequent assessment years. Capital gains arising from the sale of shares will be exempt from taxation in India in cases where an exemption is provided under a tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of the shares subject to relief available under the applicable tax treaty or under the laws of their own jurisdiction.

51. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Prospectus.

As stated in the reports of the Auditor included in this Prospectus under chapter "Financial Statements as restated" beginning on page 154, the financial statements included in this Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented

in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Prospectus. Accordingly, the degree to which the financial information included in this Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Prospectus should accordingly be limited.

52. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- excise duty on certain raw materials and components;
- central and state sales tax, value added tax and other levies; and
- Other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

53. *The nationalized goods and services tax (GST) regimes proposed by the Government of India may have material impact on our operations.*

The Government of India has proposed a comprehensive national goods and service tax (GST) regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Given the limited liability of information in the public domain covering the GST we are unable to provide/ measure the impact this tax regime may have on our operations.

54. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

55. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and our industry contained in the Prospectus.*

While facts and other statistics in the Prospectus relating to India, the Indian economy and the agriculture industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or

advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled 'Our Industry' beginning on page 87 of this Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

56. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

57. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

58. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

59. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

60. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian

economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

61. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

PROMINENT NOTES

1. Public Issue of 28,98,000 Equity Shares of face value of Rs. 10 each of our Company for cash at a price of Rs. 25 per Equity Share ("Issue Price") aggregating of Rs. 724.50 Lakhs, of which 1,50,000 Equity Shares of face value of Rs. 10 each will be reserved for subscription by Market Maker to the Issue ("Market Maker Reservation Portion"). The Issue less the Market Maker Reservation Portion i.e. Net Issue of 27,48,000 Equity Shares of face value of Rs. 10/- each is hereinafter referred to as the "Net Issue". The Issue and the Net Issue will constitute 27.10% and 25.72%, respectively of the post Issue paid up equity share capital of the Company.
2. Investors may contact the Book Running Lead Manager or the Company Secretary & Compliance Officer for any complaint/clarification/information pertaining to the Issue. For contact details of the Book Running Lead Manager and the Company Secretary & Compliance Officer, please refer to chapter titled "*General Information*" beginning on page 56 of this Prospectus.
3. The pre-issue net worth of our Company was Rs 1,148.14 lakhs for the year ended March 31, 2017. The book value of Equity Share was Rs. 88.32 pre bonus and Rs. 14.71 post bonus as of March 31, 2017 as per the restated financial statements of our Company. For more information, please refer to section titled "*Financial Statements*" beginning on page 194 of this Prospectus.
4. The average cost of acquisition per Equity Share by our Promoter is set forth in the table below:

Name of the Promoter	No. of shares held	Average Cost of acquisition (in Rs.)
Mulji Pansara	27,72,942	6.84
Amratlal Pansara	18,69,582	6.34

For further details relating to the allotment of Equity Shares to our Promoters, please refer to the chapter titled "*Capital Structure*" beginning on page 64 of this Prospectus.

5. For details on related party transactions and loans and advances made to any company in which Directors are interested, please refer "*Related Party Transaction*" under chapter titled "*Financial Statements as restated*" beginning on page 194 of this Prospectus.
6. Investors may note that in case of over-subscription in the Issue, allotment to Retail applicants and other applicants shall be on a proportionate basis. For more information, please refer to the chapter titled "*Issue Structure*" beginning on page 230 of this Prospectus.
7. Except as disclosed in the chapter titled "*Capital Structure*", "*Our Promoter and Promoter Group*", "*Our Management*" and "*Related Party Transaction*" beginning on pages 64, 144, 128 and 152 respectively, of this Prospectus, none of our Promoter, Directors or Key Management Personnel has any interest in our Company.
8. Except as disclosed in the chapter titled "*Capital Structure*" beginning on page 64 of this Prospectus, we have not issued any Equity Shares for consideration other than cash.

9. Trading in Equity Shares of our Company for all investors shall be in dematerialized form only.
10. Investors are advised to refer to the chapter titled "*Basis for Issue Price*" beginning on page 82 of the Prospectus.
11. There are no financing arrangements whereby the Promoter Group, the Directors of our Company and their relatives have financed the purchase by any other person of securities of our Company during the period of six months immediately preceding the date of filing of the Prospectus with the Stock exchange.

SECTION III – INTRODUCTION SUMMARY OF OUR INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and industry sources. Neither we nor any other person connected with the Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly, investment decisions should not be based on such information. INDIAN ELECTRICAL MACHINERY INDUSTRY

The electrical machinery sector in India primarily caters to the power sector and is poised for growth in view of the Government’s thrust on the power and construction industries. The Government of India (GOI) has embarked on an ambitious plan of ‘Power for All By 2012’. This plan aims to achieve an installed generation capacity of 200,000 MW by 2012, which in turn translates to more than a 50 per cent increase over the current levels. In order to ensure that the generated power reaches all parts of the country, an expansion of the regional transmission network and inter regional capacity to transmit power will be essential. All this presents an unparalleled growth opportunity for all industries associated with energy generation and transmission. The increasing thrust on power sector reforms is helping improve investor confidence in the sector and a parallel increase in the inflow of investments. The Government is planning to add 150,000 MW of power generation capacity in the next 10 years. This will generate substantial demand for heavy electrical machinery. India’s leading public sector electrical equipment manufacturing company, Bharat Heavy Electricals Limited, (BHEL) plans to augment its manufacturing capacity to 10,000 MW per annum by 2007, an increase of about 66 per cent from the 2006 levels of 6000 MW. This report discusses the structure of the Indian electrical machinery industry, the size and growth across key segments and the associated growth drivers and attempts to identify the critical success factors for growth and opportunities/locations that can be attractive for investors.

India produces the full range of electric power generation and transmission machinery. The electrical machinery industry consists of four key product categories, based on their use.

- **Generation machinery** - Key products in this category include generators, boilers and turbines
- **Transmission machinery** – This primarily includes different types of transformers and transmission towers
- **Distribution machinery** – Circuit breakers, switch gears and control gears are key products in this category
- **Others** – Electric motors, wires and cables

The small and medium size sectors have a significance presence in the electrical machinery industry, with an estimated share of around 35 per cent.

APPROACH TO ELECTRICAL MACHINERY INDUSTRY

Analysis of Electrical Machinery Industry needs to be approached at both macro and micro levels, whether for domestic or global markets. Electrical Machinery Industry forms part of Manufacturing Sector at a macro level. Hence, broad picture of Manufacturing Sector should be at preface while analysing the Electrical Machinery Industry

Manufacturing sector comprises various industries, which in turn, have numerous sub-classes or products. One such major industry in the overall manufacturing sector is ‘Electrical Machinery

Industry, which in turn encompasses various components one of them being ‘Battery Industry’ Thus, ‘Battery Industry’ should be analysed in the light of ‘Electrical Manufacturing’ at large.

GLOBAL ECONOMIC OVERVIEW

For India, three external developments are of significant consequence. In the short run, the change in the outlook for global interest rates as a result of the US elections and the implied change in expectations of US fiscal and monetary policy will impact on India's capital flows and exchange rates. Markets are factoring in a regime change in advanced countries, especially US macroeconomic policy, with high expectations of fiscal stimulus and unwavering exit from unconventional monetary policies. The end of the 20-year bond rally and end to the corset of deflation and deflationary expectations are within sight. Second, the medium-term political outlook for globalisation and in particular for the world's "political carrying capacity for globalisation" may have changed in the wake of recent developments. In the short run a strong dollar and declining competitiveness might exacerbate the lure of protectionist policies. These follow on on-going trends— documented widely— about stagnant or declining trade at the global level. This changed outlook will affect India's export and growth prospects

Third, developments in the US, especially the rise of the dollar, will have implications for China's currency and currency policy. If China is able to successfully re-balance its economy, the spill over effects on India and the rest of the world will be positive. On the other hand, further declines in the yuan, even if dollar-induced, could interact with underlying vulnerabilities to create disruptions in China that could have negative spill overs for India. For China, there are at least two difficult balancing acts with respect to the currency. Domestically, a declining currency (and credit expansion) props up the economy in the short run but delay rebalancing while also adding to the medium term challenges. Internationally, allowing the currency to weaken in response to capital flight risks creating trade frictions but imposing capital controls discourages FDI and undermines China's ambitions to establish the Yuan as a reserve currency. China with its underlying vulnerabilities remains the country to watch for its potential to unsettle the global economy.

REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY

The Indian economy has continued to consolidate the gains achieved in restoring macroeconomic stability. Real GDP growth in the first half of the year was 7.2 percent, on the weaker side of the 7.0-7.75 per cent projection in the Economic Survey 2015-16 and somewhat lower than the 7.6 percent rate recorded in the second half of 2015-16 (Figure 1a). The main problem was fixed investment, which declined sharply as stressed balance sheets in the corporate sector continued to take a toll on firms' spending plans. On the positive side, the economy was buoyed by government consumption, as the 7th Pay Commission salary recommendations were implemented, and by the long-awaited start of an export recovery as demand in advanced countries began to accelerate. Nominal GDP growth recovered to respectable levels, reversing the sharp and worrisome dip that had occurred in the first half of 2015-16 (Figure 1b).

The major highlights of the sectoral growth outcome of the first half of 2016-17 were: (i) moderation in industrial and nongovernment service sectors; (ii) the modest pick-up in agricultural growth on the back of improved monsoon; and (iii) strong growth in public administration and defence services—dampeners on and catalysts to growth almost balancing each other and producing a real Gross Value Addition (GVA) growth (7.2 percent), quite similar to the one (7.1 per cent) in H2 2015-16 (Figure 1b).

Inflation this year has been characterized by two distinctive features. The Consumer Price Index (CPI)-New Series inflation, which averaged 4.9 per cent during April-December 2016, has displayed a downward trend since July when it became apparent that kharif agricultural production in general, and pulses in particular would be bountiful. The decline in pulses prices has contributed substantially to the decline in CPI inflation which reached 3.4 percent at end-December. The second distinctive feature has been the reversal of WPI inflation, from a trough of (-)5.1 percent in August 2015 to 3.4 percent at end-December 2016, on the back of rising international oil prices. The wedge between CPI and WPI inflation, which had serious implications for the measurement of GDP discussed in MYEA (Box 3, Chapter 1, MYEA 2015-16), has narrowed considerably. Core inflation has, however, been more stable, hovering around 4.5 percent to 5 percent for the year so far. The outlook for the year as a whole is for CPI inflation to be below the RBI's target of 5 percent, a trend likely to be assisted by demonetisation.

External Sector

Similarly, the external position appears robust having successfully weathered the sizeable redemption of Foreign Currency Non-Resident (FCNR) deposits in late 2016, and the volatility associated with the US election and demonetisation. The current account deficit has declined to reach about 0.3 percent of GDP in the first half of FY2017. Foreign exchange reserves are at comfortable levels, having risen from around US\$350 billion at end-January 2016 to US\$ 360 billion at end-December 2016 and are well above standard norms for reserve adequacy. In part, surging net FDI

inflows, which grew from 1.7 percent of GDP in FY2016 to 3.2 percent of GDP in the second quarter of FY2017, helped the balance-of-payments

The trade deficit declined by 23.5 per cent in April-December 2016 over corresponding period of previous year. During the first half of the fiscal year, the main factor was the contraction in imports, which was far steeper than the fall in exports. But during October- December, both exports and imports started a long-awaited recovery, growing at an average rate of more than 5 per cent. The improvement in exports appears to be linked to improvements in the world economy, led by better growth in the US and Germany. On the import side, the advantage on account of benign international oil prices has receded and is likely to exercise upward pressure on the import bill in the short to medium term. Meanwhile, the net services surplus declined in the first half, as software service exports slowed and financial service exports declined. Net private remittances declined by \$4.5 bn in the first half of 2016-17 compared to the same period of 2015-16, weighed down by the lagged effects of the oil price decline, which affected inflows from the Gulf region.

Fiscal Position

Trends in the fiscal sector in the first half have been unexceptional and the central government is committed to achieving its fiscal deficit target of 3.5 percent of GDP this year. Excise duties and services taxes have benefitted from the additional revenue measures introduced last year. The most notable feature has been the over-performance (even relative to budget estimates) of excise duties in turn based on buoyant petroleum consumption: real consumption of petroleum products (petrol) increased by 11.2 percent during April-December 2016 compared to same period in the previous year. Indirect taxes, especially petroleum excises, have held up even after demonetisation in part due to the exemption of petroleum products from its scope. More broadly, tax collections have held up to a greater extent than expected possibly because of payment of dues in demonetised notes was permitted. Non-tax revenues have been challenged owing to shortfall in spectrum and disinvestment receipts but also to forecast optimism; the stress in public sector enterprises has also reduced dividend payments.

State government finances are under stress. The consolidated deficit of the states has increased steadily in recent years, rising from 2.5 percent of GDP in 2014-15 to 3.6 percent of GDP in 2015-16, in part because of the UDAY scheme. The budgeted numbers suggest there will be an improvement this year. However, markets are anticipating some slippage, on account of the expected growth slowdown, reduced revenues from stamp duties, and implementation of their own Pay Commissions. For these reasons, the spread on state bonds over government securities jumped to 75 basis points in the January 2017 auction from 45 basis points in October 2016. For the general government as a whole, there is an improvement in the fiscal deficit with and without UDAY scheme.

INDIAN POWER AND ELECTRICAL EQUIPMENT INDUSTRY

Power is a necessary fuel for a growing economy. The Indian economy is on a rising path targeting GDP growth rate of 8-9%. To achieve this growth, it is imperative that proper power infrastructure is in place. India has the fifth-largest generation capacity in the world with an installed capacity of over 211 GW, as on 31st January, 2016 and is also the sixth largest electricity consumer, accounting for 3.4% of total global consumption. India's per capita

consumption of electricity was 879 kWh in 2011-12. The industrial sector, due to increasing capacity additions, has the highest demand for electricity across all sectors and is expected to remain high. The domestic and commercial sectors are likely to experience a steady increase in demand for electricity, but the share of agriculture is expected to see a decline in the coming years.

Thermal energy accounts for the major share of generation in India. Share of wind and other renewable forms of energy currently stands at around 12% of the total installed capacity. Government plans to increase the share of power generated from renewable sources in the coming Plans. India currently stands as the 5th largest and 3rd largest producer in the world of hydro and wind energy respectively.

With envisioned capacity additions, India is expected to reach an installed capacity of 400 GW by 2022. This increase will be in line with the country's GDP growth plans of 8-9% per year. Capacity

addition in the 11th Plan has been 69% of the original target, which is encouraging. This is expected to increase further in the 12th Plan.

The Indian electrical equipment industry has performed strongly over the last decade. However, if the industry wants to become globally competitive and more importantly, if India is to achieve the planned power generation and transmission capacity addition targets along with growth of infrastructure and other industrial sectors, it is important that the electrical equipment industry maintains a high rate of growth and responds to domestic and global changes effectively. The industry should be able to enhance its level of competitiveness by focussing on employee productivity, plant productivity, automation and upgrading of manufacturing practices, product innovation, etc. Government participation in these initiatives will accelerate the growth process. To enable domestic equipment manufacturers to compete in domestic and international markets with other multinational players, the policies of the Government of India along with the State Governments have to provide a level playing field in the country.

ADVANTAGE OF ELECTRICAL MACHINERY INDUSTRY

(Source: Report Electrical Machinery Market & Opportunities www.ibef.org)

India has a number of advantages in the manufacturing sector that make it an attractive investment destination. Apart from a large and growing domestic market, it also has a well-developed supplier base, availability of skilled manpower at relatively lower costs, supportive regulatory environment and good support infrastructure. All these are positive drivers for potential investors to invest in the electrical machinery industry. Specifically, the following factors are indicative of the attractiveness of the sector:

- Increasing importance of the industrial sector – The industrial sector in India is growing at over 10 per cent, as compared to the overall GDP growth of 8 per cent, indicating the increasing significance of this sector in the economy. As industry is one of the largest consumers of power, growth in industry is driving demand for power, which in turn drives demand for electrical machinery

- Infrastructure development – The Government of India has taken up infrastructure development as a priority area and large investments continue to be made in this area. Growth in housing and retail construction, which are major consumers of electricity also indicate a sustained demand in growth for power in the future.
- Increased electrification – The Government is focusing on increasing the penetration of power supply in villages. Along with reach, the focus is also on improving the quality of

power supplied. The Indian Railways is looking at increasing the share of electric locomotives and trains in an effort to reduce costs and pollution. • Investments planned in expanding capacities in the power sector - The investments in the Indian electrical machinery industry by 2012 are expected to be about US\$ 105 billion. The bulk of the new investment is expected to be in increasing generation and transmission capacity, as depicted in the chart below.

SUMMARY OF OUR BUSINESS

Our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the chapter titled “Forward-Looking Statements” beginning on page 16 of this Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Information” beginning on pages 17 and 154, respectively.

OVERVIEW

Incorporated in the year 1999, we are a battery manufacturing Company, manufacturing & marketing our products under our flagship brand “Star Gold”. Our Company, Goldstar Power Limited is located at Hapa, Jamnagar on Jamnagar-Rajkot Highway, Gujarat with an integrated plant wherein battery scrap and discarded batteries procured from dealers and retailers are converted to finished product.

Our Company is promoted by Mulji Pansara and Amratlal Pansara. Both our promoters are subscribers of our Company and are directors since inception. We started by manufacturing of battery plates and gradually moved to forward and backward stages of manufacturing. Later, in the year 2006, Navneet Pansara, son of Mulji Pansara joined our Company as Director and since then is involved in all day to day activities of our Company. In the year 2008, Vishal Pansara, younger son of Mulji Pansara joined our Company who leads the marketing department of our Company.

We believe in manufacturing and delivering quality products and are dedicated towards supply of quality products by controlling the procurement of standard raw material, monitoring the process parameters, maintaining appropriate measures to manage hazardous materials and to comply with applicable statutory and regulatory requirements of our products. Integrated plant and quality driven products are our major strengths. Our Company’s major revenue is from sale of Battery and Lead Plates various measures ranging from IST 1000 to IST 2200, GS 400 to GS 1800 and GST, GSD and GSV versions. Our product range covers various types of batteries including automotive batteries, tubular batteries, SMF series batteries, VRLA batteries, Solar batteries, Pure Lead and Alloy batteries.

Our manufacturing facility is equipped with requisite infrastructure including machinery, other handling equipment to facilitate smooth manufacturing process. We endeavour to maintain safety in our premises by adhering to key safety norms. Our manufacturing process is integrated from procurement of raw materials to final testing.

Our Company has received Rashtriya Vikas Ratan Gold Award from International Integration and Growth Society in 2005 for Individual Achievement for Social and Economic Development.

Currently our Company caters to all three segments of market viz. exports, domestic/after sales market and OEM. We have a widespread customer base with our domestic customer base situated in various regions of the country and our international customers situated across varied countries like Uganda, Nepal, Lebanon, etc. Our batteries are generally used in cars manufactured by Tata, Maruti and Mahindra. However, the batteries are used as a replacement by car owners and not as stock batteries by car manufacturers Our Company’s significant revenue is dependent on Amara Raja Batteries Limited who sells the same to OEMs.

Our total revenues from operations for the financial year 2016-17 are Rs. 5481.20 lakhs as compared to Rs. 4002.91 and Rs. 3748.10 lakhs in financial year 2015-16 and 2014-15 respectively. Our profit before tax and depreciation for the financial year 2014-15 was Rs. 74.99 lakhs which increased to Rs. 110.24 lakhs in financial year 2015-16 and Rs. 226.63 lakhs in financial year 2016-17.

COMPETITIVE STRENGTHS

Experienced Promoters & Dedicated Marketing Team

Our Promoter, Mulji Pansara, has more than four decades of experience in this industry. In addition, we believe the strength and entrepreneurial vision of our Promoters and senior management has been instrumental in driving our growth and implementing our strategies. In addition, we have an experienced team of employees. We are led by a dedicated senior management team with several decades of experience in battery manufacturing. We believe our senior management team leverages our market position and their collective experience and knowledge in the industry, to execute our business strategies and drive our future growth. Our Company's marketing is headed by Vishal Pansara, Director of our Company; has a blend of youth and experienced personnel who serve the Company with their skills. Our Company's marketing team develops and maintains cordial relations with our customers by continuously following-up with the existing customers and approaching new customers.

Integrated Plant

We have an integrated business model which encompasses a combination of activities including recycling of discarded batteries, manufacturing and supply of batteries. We believe our integrated operations, together with our quality control measures, scale operations and efficient management systems optimize our cost structure and ensure quality products. We engage with retailers and dealers of batteries to purchase such batteries, process the same to extract lead from the battery and use it to manufacture the final product. Plastic cover is sold as scrap in domestic market. We have an integrated approach to our manufacturing process and thus make our process more cost efficient as compared to other players in the market. We also help solving environmental problems by procuring such hazardous waste and recycling the same to manufacture final product.

Strong Relationship with Amara Raja Batteries Limited

We are one of the manufacturers and suppliers of batteries to Amara Raja Batteries Limited under their brand name of "Amaron". We believe that our operations and quality control processes have enabled us to develop strong relationships with them over the years. Sale to ARBL accounted to 47.14% of our revenue from operations for the financial year 2016-17. Our purchase model involves bulk purchase of raw materials as we have an agreement with Amara Raja Batteries Limited to supply finished products with their brand name to their dealers on continuous basis based on their purchase order. As we have OEM (Original Equipment Manufacturer) business model, we have an added advantage and larger order base compared to other players who manufacture the same on Job work basis.

Quality Control

We believe that we are a quality focused company. We are committed to maintain quality and at all steps from procurement till dispatch. We have established a quality control team which has the responsibility to ensure compliance with manufacturing practices. We have in-house testing laboratory to test our raw materials to match the quality standards. Before commencement of the manufacturing process, the raw materials purchased by our Company have to undergo a quality check, to ensure that they are of relevant quality and match the standards as specified. The finished products are checked in our in house testing laboratory to ensure that the same is of relevant standards and design as specified by the customer; the products are then packed and dispatched.

Diversified product portfolio:

Our product portfolio includes a range of batteries as well as customer specific batteries. Wide range of products and ability to manufacture specialised products enable us to cater to evolving consumer

needs. Our batteries are used by inverter manufacturers, automobile industry, general industrial applications, solar power plants, UPS applications for Power Back up, etc. Our product range helps us to achieve economies of scale and provides us an advantage in case of down turn in any industry in which we supply.

BUSINESS STRATEGY

Improve and increase operational efficiencies

We will continue to focus on further increasing our operations and improving operational effectiveness at our production facilities. Higher operational effectiveness results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over a higher number of units sold, thereby increasing profit margins. We will also continue to identify various strategic initiatives to improve our operational efficiencies and reduce operating costs. We shall continue to focus on investing in automation, modern technology and equipment to continually upgrade our products including the quality of our products to address changing customer preferences as well as to improve operational efficiency. We continue to target economies of scale to gain increased negotiating power on procurement and to realize cost savings through centralized deployment and management of production, maintenance, accounting and other support functions.

Expand our retail consumer base

We intend to expand our retail consumer base by developing and engaging more dealers and distributors in India for our products and also aim to grow direct sales to retail consumer products by setting up branches and service station for after sale service. We aim to achieve this through marketing of our brands and expansion of our distribution network to promote our brand visibility and continue to evaluate potential sales growth for specific products and cost of distribution from time to time. We also intend to engage stockists in revenue generating area as well as other existing and new markets in various states.

Improve capacity utilization

We aim to focus on further integrating our operations and improving capacity utilization at our production facilities by introducing additional product lines that enable us to effectively utilize our machines. Higher capacity utilization results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over a higher number of units sold, thereby increasing profit margins. For further information, please see the section entitled “*Our Business – Capacity Utilization*” in this section.

Pursue international growth opportunities

We believe that there exist substantial opportunities to grow our business internationally. Further, we intend to mainly focus on the institutional and retail customers in the future in these geographies to scale up our revenues. Historically our revenue has been dependent on domestic market. We intend to develop new distribution channels in international geographies and upscale our export operations to sell higher volumes of our products and aim to expand our retail presence.

PRODUCT RANGE

Our Company is engaged in manufacturing of batteries and its components which cater to various industries such as Inverter/UPS manufacturers, Automobile, General industrial applications and Solar Energy Storage.

Our product range includes the following products:

Automotive Batteries

Automotive batteries are rechargeable battery that supplies electrical energy to a motor vehicle. They are also known as an SLI battery (starting-lighting-ignition) as main purpose of such batteries is to start the engine. Starting discharges less than three per cent of power of battery capacity and thus SLI batteries are designed to release a high burst of current and then be quickly recharged.

The SLI battery supplies the extra power necessary when the vehicle's electrical requirements exceed the supply from the charging system. It acts as a stabilizer, evening out potentially damaging voltage spikes. SLI batteries are lead-acid type, using six series-connected cells to provide a nominal 12 volt system (in most passenger vehicles and light trucks), or twelve cells for a 24 volt system in heavy trucks or earth-moving equipment.

Battery electric vehicles are powered by a high-voltage electric vehicle battery, but they generally have an automotive battery as well, so that they can use standard automotive accessories which are designed to run on 12 V.

Application: Automotive Batteries are used in two wheelers, four wheelers, passenger and commercial road carriers.

Tubular Batteries

A tubular battery uses technology that seals the active material in polyester tubes called gauntlets, instead of pasting it on the surface of the plate. There's no shedding or corrosion, ensuring long life of such batteries. Owing to their toughness and durability, tubular batteries can operate at extreme temperatures, and are used in high cyclic applications involving frequent and prolonged power outages. Tubular Batteries are used in inverters for domestic and commercial use.

Application: Tubular Batteries are used for Inverters/ UPS for Power Back up

SMF Series Batteries

SMF Series Batteries have similar application to those of Automotive Batteries and are used mainly in cars. This range of SMF (Sealed Maintenance Free) Car Batteries are manufactured keeping India's harsh weather and road condition and having the ability to withstand such weather conditions. SMF Batteries feature lead calcium grids (lead calcium technology) for improved resistance to corrosion, overcharging, gassing, water usage, self-discharge and thermal runaway, all of which limit battery life in conventional lead acid batteries. The SMF batteries are flat plate batteries and using "calcium/calcium alloy" which do not require topping-up with water during service life. It incorporates sealed covers with built in flame arresters for better resistance to acid loss, electrolyte contamination and explosions from external sparks.

Application: Majorly used in Cars and Four Wheelers.

VRLA Batteries

VRLA Batteries are valve regulated lead-acid battery which is prepared using Lead paste. Absorbed Glass Mat (AGM) types of VRLA can be mounted on any orientation, and do not require constant maintenance. They are widely used in large portable electrical devices, off-grid power systems and similar roles, where large amounts of storage are needed at a lower cost than other low-maintenance technologies like lithium-ion.

Application: Majorly in two wheelers and UPS

Solar Batteries

Solar Batteries are designed to have low antimony alloy which reduce the topping up frequency, making the battery as low maintenance. Recognizing the importance of alternative energy source like solar power, we have ventured into producing solar batteries. Our solar batteries are featured with fast charging and low discharge rates which are designed to suit wide range of Solar Panels.

Application: Majorly in Solar Photovoltaic System, Solar Power Plant and Solar-Wind Hybrid System.

Pure Lead and Lead Alloys

We manufacture pure lead and lead alloys from discarded batteries after extracting lead from them. Our alloying plant is capable to produce all kind of Lead Alloys as per the customer requirement like Antimonial, Calcium and Selenium Lead Alloy, etc. We have different alloying kettles of various

capacities accompanied by automatic and high efficiency furnace oil burners equipped with preheating arrangements. Emissions control is achieved and our alloys are dross-free. We provide in-house optical emission spectrophotometer test reports with the same which includes 16 elemental test report.

Application: Majorly used by industries engaged in manufacturing batteries

Red Lead

Chemically known as Lead Tetra Oxide, is an orange red to brick red powder. We manufacture Red Lead specifically for Lead Acid Storage Batteries. Our manufacturing plant for Red Lead has a Barton plant. Potassium is mixed with Lead to produce Red Lead.

Application: Majorly used for manufacturing battery and lead crystal glass.

Grey Lead

The Grey Lead oxide is also known lead sub oxide, grey oxide and battery oxide. The Grey Oxide is produced in ball mill plant & the process is an exothermic reaction.

Application: Majorly used for manufacturing battery and lead crystal glass.

MARKETING

The efficiency of the marketing and sales network is critical to success of our Company. Our success lies in the strength of our relationship with our customers who have been associated with our Company. Our marketing team through their vast experience and good rapport with clients owing to timely and quality delivery of service plays an instrumental role in creating and expanding a work platform for our Company. Our Director, Vishal Pansara leads the marketing department of the Company. To retain our customers, our marketing team, which comprises of youth and experienced people interact with clients and focus on gaining an insight into the needs of customers.

Notes:

The Issue has been authorized by the Board of Directors *vide* a resolution passed at its meeting held on July 24,2017 and by the shareholders of our Company *vide* a special resolution passed pursuant to section 62(1)(c) of the Companies Act, 2013 at the Extra Ordinary General Meeting held on July 31,2017.

This Issue is being made in terms of Chapter XB of the SEBI (ICDR) Regulations, 2009, as amended from time to time.

*As per Regulation 43(4) of the SEBI (ICDR) Regulations, as amended, as present issue is a fixed price issue, the allocation in the net Issue to the public category shall be made as follows:

- a) Minimum fifty percent to retail individual investors; and
- b) Remaining to
 - i. Individual applicants other than retail individual investors; and
 - ii. Other investors including corporate bodies or institutions, irrespective of the number of specified securities applied for;
- c) The unsubscribed portion in either of the categories specified in (a) or (b) above may be allocated to the applicants in the other category.

If the retail individual investor category is entitled to more than fifty per cent on proportionate basis, accordingly the retail individual investors shall be allocated that higher percentage

GENERAL INFORMATION

OVERVIEW OF OUR COMPANY

Our Company was originally incorporated as a private limited company in the name and style of Goldstar Battery Private Limited by Mulji Pansara and Amratlal Pansara and received a Certificate of Incorporation issued by Registrar of Companies, Gujarat on July 12, 1999 bearing Registration No. 04-36274. Consequently, the name of Company was changed “Goldstar Power Private Limited” vide a Change of Name certificate dated July 13, 2017 issued by Registrar of Companies, Gujarat and special resolution passed in the Extraordinary General Meeting of the members held on July 1, 2017. Further, it was converted into a public limited company pursuant to shareholders resolution passed at Extra-ordinary General Meeting of our Company held on July 15, 2017 and the name of our Company was changed to Goldstar Power Limited and a fresh certificate of incorporation consequent upon Conversion of Private Company to Public Limited dated July 21, 2017 was issued by Registrar of Companies, Gujarat. The Corporate Identification Number of our Company is U36999GJ1999PLC036274.

Mulji Pansara and Amratlal Pansara were initial subscribers to our Company and are promoters of our Company. The details in this regard have been disclosed in the chapter titled, “Capital Structure” beginning on page 64 of this Prospectus.

For further details of Business, Incorporation, Change of Name and Registered Office of our company, please refer to chapter titled “Our Business” and “Our History and Certain Other Corporate Matters” beginning on page 96 and page 124 of this Prospectus.

DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company, Market Maker and the Lead Manager have entered into a tripartite agreement dated August 11, 2017 with the following Market Maker, duly registered with National Stock Exchange of India Ltd. to fulfil the obligations of Market Making:

Pantomath Stock Brokers Private Limited
 406-408, Keshava Premises, Behind Family Court
 Bandra Kurla Complex, Bandra (East),
 Mumbai – 400 051, Maharashtra, India
Tel: +91 22 61946700
Fax: +91 22 26598690
E-mail: broking@pantomathgroup.com
Website: www.pantomathbroking.com
Contact Person: Mahavir Toshniwal
SEBI Registration No.: INZ000068338

Pantomath Stock Brokers Private Limited, registered with EMERGE platform of National Stock Exchange of India Limited will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations. The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by National Stock Exchange of India Ltd. and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The spread (difference between the sell and the buy quote) shall not be more than 10% or as specified by the stock exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).

2. The minimum depth of the quote shall be Rs. 1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of Rs. 25.00 the minimum lot size is 6,000 Equity shares thus minimum depth of the quote shall be Rs. 1,50,000 Lakhs until the same, would be revised by NSE.
3. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the 28,98,000 Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2-way quotes.
4. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, National Stock Exchange of India Ltd. may intimate the same to SEBI after due verification.
5. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
6. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Pantomath Stock Brokers Private Limited is acting as the sole Market Maker.
7. The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on Emerge Platform of NSE Ltd. and market maker will remain present as per the guidelines mentioned under NSE Ltd. and SEBI circulars.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
9. The Market Maker(s) shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations. Further the Company and the Lead Manager reserves the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our Corporate Office from 11.00 a.m. to 5.00 p.m. on working days.

10. The spread (difference between buy and sale quote) shall no be more than 10% or as specified by the Stock Exchange
11. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time

12. Emerge Platform of NSE will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE Ltd. can impose any other margins as deemed necessary from time-to-time.
13. Emerge Platform of NSE Ltd. will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker(s) in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

14. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crores	25%	24%
Rs. 20 crores to Rs. 50 crores	20%	19%
Rs. 50 to Rs. 80 crores	15%	14%
Above Rs. 80 crores	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI/NSE from time to time.

Amratlal Pansara	11,00,000	10	-	August 2, 2017	Allotment	Other than Cash	10.28%	Not Applicable
TOTAL	22,00,000							

The Equity Shares that are being locked in are eligible for computation of Promoter's contribution under Regulation 33 of the SEBI ICDR Regulations. In this Connection, as per Regulation 33 of the SEBI ICDR Regulations, our Company confirms that the equity shares locked-in do not consist of:

- i. Equity Shares acquired during the preceding three years for consideration other than cash and revaluation of assets or capitalization of intangible assets or bonus shares out of revaluations reserves or unrealised profits or bonus shares which are otherwise ineligible for computation of Promoters' Contribution;
- ii. Equity Shares acquired during the preceding one year, at a price lower than the price at which the Equity Shares are being offered to the public in the Issue;
- iii. Equity Shares issued to the promoters upon conversion of a partnership firm;
- iv. Equity Shares held by the Promoters that are subject to any pledge; and
- v. Equity Shares for which specific written consent has not been obtained from the respective shareholders for inclusion of their subscription in the Promoter' Contribution subject to lock-in.

The minimum Promoters Contribution has been brought in to the extent of, not less than the specified minimum lot and from the persons defined as "Promoters" under the SEBI ICDR Regulations.

Details of Equity Shares locked-in for one year

Other than the above Equity Shares that are locked in for three years, the entire pre-Issue Equity Share capital of our Company shall be locked-in for a period of one year from the date of allotment in the issue pursuant to Regulation 36(b) and Regulation 37 of the SEBI ICDR Regulations.

Other requirements in respect of lock-in

Pursuant to Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoter, as specified above, can be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such scheduled commercial banks or public financial institution, provided that the pledge of the Equity Shares is one of the terms of the sanction of the loan.

Provided that securities locked in as Promoter's Contribution for 3 years under Regulation 36(a) of the SEBI ICDR Regulations may be pledged only if, in addition to fulfilling the above requirement, the loan has been granted by such scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Further, pursuant to Regulation 40 of the SEBI ICDR Regulations, the Equity Shares held by persons other than the Promoters prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI ICDR Regulations, along with the Equity Shares proposed to be transferred, provided that lock-in on such Equity Shares will continue for the remaining period with the transferee and such transferee shall not be eligible to transfer such Equity Shares till the lock-in period stipulated under the SEBI ICDR Regulations has ended, subject to compliance with the Takeover Code, as applicable

We further confirm that our Promoter's Contribution of 20.64% of the post Issue Equity Share capital does not include any contribution from Alternative Investment Fund.

OBJECTS OF THE ISSUE

Requirement of Funds:

The proceeds of the Issue, after deducting Issue related expenses, are estimated to be 724.50 lakhs (the "Net Proceeds").

We intend to utilize the net proceeds from Issue towards the following objects:

1. Funding the working capital requirements of the Company
2. General Corporate Purpose

Also, we believe that the listing of Equity Shares will enhance our Company's corporate image, brand name and create a public market for our Equity Shares in India.

The main objects clause of our Memorandum of Association and the objects incidental and ancillary to the main objects enables us to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the objects clause of our Memorandum of Association.

General Corporate Purpose	4.50	-	4.50	-	-

*The sanctioned loan amounting to Rs. 700.00 lakhs is a fund based overdraft limit. The sanctioned amount of Rs. 700.00 lakhs will be reduced every month by an amount equal to cash credit loan divided by total tenure of loan, i.e. 96 months

*An overdraft facility from HDFC Bank has been availed vide agreement dated August 10, 2017 for Rs. 200.00 lakhs

Our Company shall determine the fund requirement on finalization of Issue Price and thus inter-se allocation of funds shall vary and will be updated in the Prospectus

Accordingly, we confirm that we are in compliance with the requirement to make firm arrangements of finance under Regulation 4(2)(g) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Net Proceeds and existing identifiable internal accruals.

The fund requirements mentioned above are based on the internal management estimates of our Company and have not been verified by the Lead Manager or appraised by any bank, financial institution or any other external agency. The fund requirements are based on current circumstances of our business and our Company may have to revise its estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, costs of commodities and interest or exchange rate fluctuations. Consequently, the fund requirements of our Company are subject to revisions in the future at the discretion of the management. In the event of any shortfall of funds for the activities proposed to be financed out of the Net Proceeds as stated above, our Company may re-allocate the Net Proceeds to the activities where such shortfall has arisen, subject to compliance with applicable laws. Further, in case of a shortfall in the Net Proceeds or cost overruns, our management may explore a range of options including utilising our internal accruals or seeking debt financing

Our Company proposes to utilize Rs. 675.00 lakhs of Net Proceeds towards working capital requirements for meeting our business requirements.

The working capital requirements are based on historical Company data and estimation of the future requirements in Financial Year 2017-18 considering the growth in activities of our Company. Our Company has assumed Trade receivables and Trade payables as 1.50 months and 0.47 months respectively for the Financial Year 2017-18.

Justification for “Holding Period” levels

The justifications for the holding levels mentioned in the table above are provided below

Assets - Current Assets	Justification
Trade receivables	Our Company shall give credit facility of around 1.50 months to our debtors. We intend to tap new customers and provide liberal credit facility in financial year 2017-18 as compared to 1.22 months in financial year 2016-17 for expanding our sales.
Inventories	<ul style="list-style-type: none"> Raw material consists mainly of lead and discarded batteries which are generally procured from domestic market. We expect increase in inventory levels as we intend to purchase raw material in bulk quantity by advance payment post orders. Manufacturing of batteries generally takes 7-8 days from receipt of raw material to final product after packing. We expect a marginal increase in stock of work in progress as our unit would be running at better capacity compared to previous years because of increased projected sales. We expect finished goods days to be in line with current policy
Liabilities - Current Liabilities	
Trade Payables	We have assumed creditors days of 0.47 months as we intend to purchase raw materials and stock in trade on strict payment terms to avail discounts.

Pursuant to the certificate dated August 7, 2017, M/s M N Manwar & Co., Chartered Accountants, have compiled the working capital estimates from the Restated Financial Statements and the working capital projections as approved by the Board by the resolution dated August 2, 2017.

2. General Corporate Purpose

INDIAN ELECTRICAL MACHINERY INDUSTRY

The electrical machinery sector in India primarily caters to the power sector and is poised for growth in view of the Government’s thrust on the power and construction industries. The Government of India (GOI) has embarked on an ambitious plan of ‘Power for All By 2012’. This plan aims to achieve an installed generation capacity of 200,000 MW by 2012, which in turn translates to more than a 50 per cent increase over the current levels. In order to ensure that the generated power reaches all parts of the country, an expansion of the regional transmission network and inter regional capacity to transmit power will be essential. All this presents an unparalleled growth opportunity for all industries associated with energy generation and transmission. The increasing thrust on power sector reforms is helping improve investor confidence in the sector and a parallel increase in the inflow of investments. The Government is planning to add 150,000 MW of power generation capacity in the next 10 years. This will generate substantial demand for heavy electrical machinery. India’s leading public sector electrical equipment manufacturing company, Bharat Heavy Electricals Limited, (BHEL) plans to augment its manufacturing capacity to 10,000 MW per annum by 2007, an increase of about 66 per cent from the 2006 levels of 6000 MW. This report discusses the structure of the Indian electrical machinery industry, the size and growth across key segments and the associated growth drivers and attempts to identify the critical success factors for growth and opportunities/locations that can be attractive for investors.

India produces the full range of electric power generation and transmission machinery. The electrical machinery industry consists of four key product categories, based on their use.

- **Generation machinery** - Key products in this category include generators, boilers and turbines
- **Transmission machinery** – This primarily includes different types of transformers and transmission towers
- **Distribution machinery** – Circuit breakers, switch gears and control gears are key products in this category
- **Others** – Electric motors, wires and cables

The small and medium size sectors have a significance presence in the electrical machinery industry, with an estimated share of around 35 per cent.

APPROACH TO ELECTRICAL MACHINERY INDUSTRY

Analysis of Electrical Machinery Industry needs to be approached at both macro and micro levels, whether for domestic or global markets. Electrical Machinery Industry forms part of Manufacturing Sector at a macro level. Hence, broad picture of Manufacturing Sector should be at preface while analysing the Electrical Machinery Industry

Manufacturing sector comprises various industries, which in turn, have numerous sub-classes or products. One such major industry in the overall manufacturing sector is ‘Electrical Machinery

Industry, which in turn encompasses various components one of them being ‘Battery Industry’ Thus, ‘Battery Industry’ should be analysed in the light of ‘Electrical Manufacturing’ at large.

GLOBAL ECONOMIC OVERVIEW

For India, three external developments are of significant consequence. In the short run, the change in the outlook for global interest rates as a result of the US elections and the implied change in expectations of US fiscal and monetary policy will impact on India's capital flows and exchange rates. Markets are factoring in a regime change in advanced countries, especially US macroeconomic policy, with high expectations of fiscal stimulus and unwavering exit from unconventional monetary policies. The end of the 20-year bond rally and end to the corset of deflation and deflationary expectations are within sight. Second, the medium-term political outlook for globalisation and in particular for the world's "political carrying capacity for globalisation" may have changed in the wake of recent developments. In the short run a strong dollar and declining competitiveness might exacerbate the lure of protectionist policies. These follow on on-going trends—documented widely—about stagnant or declining trade at the global level. This changed outlook will affect India's export and growth prospects

Third, developments in the US, especially the rise of the dollar, will have implications for China's currency and currency policy. If China is able to successfully re-balance its economy, the spill over effects on India and the rest of the world will be positive. On the other hand, further declines in the yuan, even if dollar-induced, could interact with underlying vulnerabilities to create disruptions in China that could have negative spill overs for India. For China, there are at least two difficult balancing acts with respect to the currency. Domestically, a declining currency (and credit expansion) props up the economy in the short run but delay rebalancing while also adding to the medium term challenges. Internationally, allowing the currency to weaken in response to capital flight risks creating trade frictions but imposing capital controls discourages FDI and undermines China's ambitions to establish the Yuan as a reserve currency. China with its underlying vulnerabilities remains the country to watch for its potential to unsettle the global economy.

REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY

The Indian economy has continued to consolidate the gains achieved in restoring macroeconomic stability. Real GDP growth in the first half of the year was 7.2 percent, on the weaker side of the 7.0-7.75 per cent projection in the Economic Survey 2015-16 and somewhat lower than the 7.6 percent rate recorded in the second half of 2015-16 (Figure 1a). The main problem was fixed investment, which declined sharply as stressed balance sheets in the corporate sector continued to take a toll on firms' spending plans. On the positive side, the economy was buoyed by government consumption, as the 7th Pay Commission salary recommendations were implemented, and by the long-awaited start of an export recovery as demand in advanced countries began to accelerate. Nominal GDP growth recovered to respectable levels, reversing the sharp and worrisome dip that had occurred in the first half of 2015-16 (Figure 1b).

The major highlights of the sectoral growth outcome of the first half of 2016-17 were: (i) moderation in industrial and nongovernment service sectors; (ii) the modest pick-up in agricultural growth on the back of improved monsoon; and (iii) strong growth in public administration and defence services—dampeners on and catalysts to growth almost balancing each other and producing a real Gross Value Addition (GVA) growth (7.2 percent), quite similar to the one (7.1 per cent) in H2 2015-16 (Figure 1b).

Inflation this year has been characterized by two distinctive features. The Consumer Price Index (CPI)-New Series inflation, which averaged 4.9 per cent during April-December 2016, has displayed a downward trend since July when it became apparent that kharif agricultural production in general, and pulses in particular would be bountiful. The decline in pulses prices has contributed substantially to the decline in CPI inflation which reached 3.4 percent at end-December. The second distinctive feature has been the reversal of WPI inflation, from a trough of (-)5.1 percent in August 2015 to 3.4 percent at end-December 2016, on the back of rising international oil prices. The wedge between CPI and WPI inflation, which had serious implications for the measurement of GDP discussed in MYEA (Box 3, Chapter 1, MYEA 2015-16), has narrowed considerably. Core inflation has, however, been more stable, hovering around 4.5 percent to 5 percent for the year so far. The outlook for the year as a whole is for CPI inflation to be below the RBI's target of 5 percent, a trend likely to be assisted by demonetisation.

External Sector

Similarly, the external position appears robust having successfully weathered the sizeable redemption of Foreign Currency Non-Resident (FCNR) deposits in late 2016, and the volatility associated with the US election and demonetisation. The current account deficit has declined to reach about 0.3 percent of GDP in the first half of FY2017. Foreign exchange reserves are at comfortable levels, having risen from around US\$350 billion at end-January 2016 to US\$ 360 billion at end-December 2016 and are well above standard norms for reserve adequacy. In part, surging net FDI inflows, which grew

from 1.7 percent of GDP in FY2016 to 3.2 percent of GDP in the second quarter of FY2017, helped the balance-of-payments

The trade deficit declined by 23.5 per cent in April-December 2016 over corresponding period of previous year. During the first half of the fiscal year, the main factor was the contraction in imports, which was far steeper than the fall in exports. But during October- December, both exports and imports started a long-awaited recovery, growing at an average rate of more than 5 per cent. The improvement in exports appears to be linked to improvements in the world economy, led by better growth in the US and Germany. On the import side, the advantage on account of benign international oil prices has receded and is likely to exercise upward pressure on the import bill in the short to medium term. Meanwhile, the net services surplus declined in the first half, as software service exports slowed and financial service exports declined. Net private remittances declined by \$4.5 bn in the first half of 2016-17 compared to the same period of 2015-16, weighed down by the lagged effects of the oil price decline, which affected inflows from the Gulf region.

Fiscal Position

Trends in the fiscal sector in the first half have been unexceptional and the central government is committed to achieving its fiscal deficit target of 3.5 percent of GDP this year. Excise duties and services taxes have benefitted from the additional revenue measures introduced last year. The most notable feature has been the over-performance (even relative to budget estimates) of excise duties in turn based on buoyant petroleum consumption: real consumption of petroleum products (petrol) increased by 11.2 percent during April-December 2016 compared to same period in the previous year. Indirect taxes, especially petroleum excises, have held up even after demonetisation in part due to the exemption of petroleum products from its scope. More broadly, tax collections have held up to a greater extent than expected possibly because of payment of dues in demonetised notes was permitted. Non-tax revenues have been challenged owing to shortfall in spectrum and disinvestment receipts but also to forecast optimism; the stress in public sector enterprises has also reduced dividend payments.

State government finances are under stress. The consolidated deficit of the states has increased steadily in recent years, rising from 2.5 percent of GDP in 2014-15 to 3.6 percent of GDP in 2015-16, in part because of the UDAY scheme. The budgeted numbers suggest there will be an improvement this year. However, markets are anticipating some slippage, on account of the expected growth slowdown, reduced revenues from stamp duties, and implementation of their own Pay Commissions. For these reasons, the spread on state bonds over government securities jumped to 75 basis points in the January 2017 auction from 45 basis points in October 2016. For the general government as a whole, there is an improvement in the fiscal deficit with and without UDAY scheme.

OUTLOOK FOR 2016-17

This year's outlook must be evaluated in the wake of the November 8 action to demonetize the high denomination notes. But it is first important to understand the analytics of the demonetisation shock in the short run. Demonetisation affects the economy through three different channels. It is potentially: 1) an aggregate demand shock because it reduces the supply of money and affects private wealth, especially of those holding unaccounted money; 2) an aggregate supply shock to the extent that economic activity relies on cash as an input (for example, agricultural production might be affected since sowing requires the use of labour traditionally paid in cash); and 3) an uncertainty shock because economic agents face imponderables related to the magnitude and duration of the cash shortage and the policy responses (perhaps causing consumers to defer or reduce discretionary consumption and firms to scale back investments).

Demonetisation is also very unusual in its monetary consequences. It has reduced sharply, the supply of one type of money— cash—while increasing almost to the same extent another type of money— demand deposits. This is because the demonetized cash was required to be deposited in the banking system. In the third quarter of FY2017 (when demonetisation was introduced), cash declined by 9.4 percent, demand deposits increased by 43 percent, and growth in the sum of the two by 11.3 percent.

The price counterparts of this unusual aspect of demonetisation are the surge in the price of cash (inferred largely through queues and restrictions), on the one hand; and the decline in interest rates on the lending rate (based on the marginal cost of funds) by 90 basis points since November 9; on deposits (by about 25 basis points); and on g-secs on the other (by about 32 basis points).

There is yet another dimension of demonetisation that must be kept in mind. By definition, all these quantity and price impacts will self-correct by amounts that will depend on the pace at which the economy is remonetized and policy restrictions eased. As this occurs, consumers will run down their bank deposits and increase their cash holdings. Of course, it is possible, even likely that the self-correction will not be complete because in the new equilibrium, aggregate cash holdings (as a share of banking deposits and GDP) are likely to be lower than before.

Anecdotal and other survey data abound on the impact of demonetisation. But we are interested in a macro-assessment and hence focus on five broad indicators: Agricultural (Rabi) sowing; Indirect tax revenue, as a broad gauge of production and sales; Auto sales, as a measure of discretionary consumer spending and two-wheelers, as the best indicator of both rural and less affluent demand; Real credit growth; and Real estate prices. Contrary to early fears, as of January 15, 2017 aggregate sowing of the two major rabi crops—wheat and pulses (gram)—exceeded last year’s planting by 7.1 percent and 10.7 percent, respectively. Favourable weather and moisture conditions presage an increase in production. To what extent these favourable factors will be attenuated will depend on whether farmers’ access to inputs—fertilizer, credit, and labour—was affected by the cash shortage.

To estimate a demonetisation effect, one needs to start with the counterfactual. Our best estimate of growth in the absence of demonetisation is 11¼ percent in nominal terms (slightly higher than last year’s Survey forecast because of the faster rebound in WPI inflation, but lower than the CSO’s advance estimate of 11.9 percent) and 7 percent in real terms (in line with both projections).

Finally, demonetisation will afford an interesting natural experiment on the substitutability between cash and other forms of money. Demonetisation has driven a sharp and dramatic wedge in the supply of these two: if cash and other forms are substitutable, the impact will be relatively muted; if, on the other hand, cash is not substitutable the impact will be greater.

OUTLOOK FOR 2017-18

Turning to the outlook for 2017-18, we need to examine each of the components of aggregate demand: exports, consumption, private investment and government.

As discussed earlier, India’s exports appear to be recovering, based on an uptick in global economic activity. This is expected to continue in the aftermath of the US elections and expectations of a fiscal stimulus. The IMF’s January update of its World Economic Outlook forecast is projecting an increase in global growth from 3.1 percent in 2016 to 3.4 percent in 2017, with a corresponding increase in growth for advanced economies from 1.6 percent to 1.9 percent. Given the high elasticity of Indian real export growth to global GDP, exports could contribute to higher growth next year, by as much as 1 percentage point.

The outlook for private consumption is less clear. International oil prices are expected to be about 10-15 percent higher in 2017 compared to 2016, which would create a drag of about 0.5 percentage points. On the other hand, consumption is expected to receive a boost from two sources: catch-up after the demonetisation-induced reduction in the last two quarters of 2016-17; and cheaper borrowing costs, which are likely to be lower in 2017 than 2016 by as much as 75 to 100 basis points. As a result, spending on housing and consumer durables and semi-durables could rise smartly. It is too early to predict prospects for the monsoon in 2017 and hence agricultural production. But the higher is agricultural growth this year, the less likely that there would be an extra boost to GDP growth next year.

Since no clear progress is yet visible in tackling the twin balance sheet problem, private investment is unlikely to recover significantly from the levels of FY2017. Some of this weakness could be offset through higher public investment, but that would depend on the stance of fiscal policy next year,

which has to balance the short-term requirements of an economy recovering from demonetisation against the medium-term necessity of adhering to fiscal discipline—and the need to be seen as doing so. Putting these factors together, we expect real GDP growth to be in the 6¾ to 7½ percent range in FY2018. Even under this forecast, India would remain the fastest growing major economy in the world.

There are three main downside risks to the forecast. First, the extent to which the effects of demonetisation could linger into next year, especially if uncertainty remains on the policy response. Currency shortages also affect supplies of certain agricultural products, especially milk (where procurement has been low), sugar (where cane availability and drought in the southern states will restrict production), and potatoes and onions (where sowings have been low). Vigilance is essential to prevent other agricultural products becoming in 2017-18 what pulses was in 2015-16.

Second, geopolitics could take oil prices up further than forecast. The ability of shale oil production to respond quickly should contain the risks of a sharp increase, but even if prices rose merely to \$60-65/barrel the Indian economy would nonetheless be affected by way of reduced consumption; less room for public investment; and lower corporate margins, further denting private investment. The scope for monetary easing might also narrow, if higher oil prices stoked inflationary pressure.

Third, there are risks from the possible eruption of trade tensions amongst the major countries, triggered by geo-politics or currency movements. This could reduce global growth and trigger capital flight from emerging markets. The one significant upside possibility is a strong rebound in global demand and hence in India's exports. There are some nascent signs of that in the last two quarters. A strong export recovery would have broader spill over effects to investment.

Fiscal outlook

The fiscal outlook for the central government for next year will be marked by three factors. First, the increase in the tax to GDP ratio of about 0.5 percentage points in each of the last two years, owing to the oil windfall will disappear. In fact, excise-related taxes will decline by about 0.1 percentage point of GDP, a swing of about 0.6 percentage points relative to FY2017.

Second, there will be a fiscal windfall both from the high denomination notes that are not returned to the RBI and from higher tax collections as a result of increased disclosure under the Pradhan Mantra Garib Kalyan Yojana (PMGKY). Both of these are likely to be one-off in nature, and in both cases the magnitudes are uncertain.

A third factor will be the implementation of the GST. It appears that the GST will probably be implemented later in the fiscal year. The transition to the GST is so complicated from an administrative and technology perspective that revenue collection will take some time to reach full potential. Combined with the government's commitment to compensating the states for any shortfall in their own GST collections (relative to a baseline of 14 percent increase), the outlook must be cautious with respect to revenue collections. The fiscal gains from implementing the GST and demonetisation, while almost certain to occur, will probably take time to be fully realized. In addition, muted non-tax revenues and allowances granted under the 7th Pay Commission could add to pressures on the deficit.

The macroeconomic policy stance for 2017-18

An economy recovering from demonetisation will need policy support. On the assumption that the equilibrium cash-GDP ratio will be lower than before November 8, the banking system will benefit from a higher level of deposits. Thus, market interest rates—deposits, lending, and yields on g-secs—should be lower in 2017-18 than 2016-17. This will provide a boost to the economy (provided, of course, liquidity is no longer a binding constraint). A corollary is that policy rates can be lower not necessarily to lead and nudge market rates but to validate them. Of course, any sharp uptick in oil prices and those of agricultural products, would limit the scope for monetary easing.

Fiscal policy is another potential source of policy support. This year the arguments may be slightly different from those of last year in two respects. Unlike last year, there is more cyclical weakness on account of demonetisation. Moreover, the government has acquired more credibility because of

posting steady and consistent improvements in the fiscal situation for three consecutive years, the central government fiscal deficit declining from 4.5 percent of GDP in 2013-14 to 4.1 percent, 3.9 percent, and 3.5 percent in the following three years. But fiscal policy needs to balance the cyclical imperatives with medium term issues relating to prudence and credibility.

One key question will be the use of the fiscal windfall (comprising the unreturned cash and additional receipts under the PMGKY) which is still uncertain. Since the windfall to the public sector is both one off and a wealth gain not an income gain, it should be deployed to strengthening the government's balance sheet rather than being used for government consumption, especially in the form of programs that create permanent entitlements. In this light, the best use of the windfall would be to create a public sector asset reconstruction company so that the twin balance sheet problem can be addressed, facilitating credit and investment revival; or toward the compensation fund for the GST that would allow the rates to be lowered and simplified; or toward debt reduction. The windfall should not influence decisions about the conduct of fiscal policy going forward.

Perhaps the most important reforms to boost growth will be structural. In addition to those spelt out in Section 1—strategic disinvestment, tax reform, subsidy rationalization—it is imperative to address directly the twin balance sheet problem. The problem is large, persistent and difficult, will not correct itself even if growth picks up and interest rates decline, and current attempts have proved grossly inadequate. It may be time to consider something like a public sector asset reconstruction company.

Another area of reform relates to labour. Given the difficulty of reforming labor laws per se, the thrust could be to move towards affording greater choice to workers which would foster competition amongst service providers. Choices would relate to: whether they want to make their own contribution to the Employees' Provident Fund Organisation (EPFO); whether the employers' contribution should go to the EPFO or the National Pension Scheme; and whether to contribute to the Employee State Insurance (ESI) or an alternative medical insurance program. At the same time, there could be a gradual move to ensure that at least compliance with the central labour laws is made paperless, presence less, and cashless. One radical idea to consider is the provision of a universal basic income. But another more modest proposal worth embracing is procedural: a standstill on new government programs, a commitment to assess every new program only if it can be shown to demonstrably address the limitations of an existing one that is similar to the proposed one; and a commitment to evaluate and phase down existing programs that are not serving their purpose.

GLOBAL ELECTRICAL MACHINERY INDUSTRY

Global Electricity Market

The demand for electricity worldwide is projected to grow at an annual rate of 2.4% for the period 2009–2035, driven by economic and population growth. Over 80% of the growth between 2009 and 2035 is expected to be in non-OECD countries

New Capacity and Investment in Power Infrastructure

The world's installed power generation capacity is projected to rise from 4,957 GW in 2009 to about 9100 GW in 2035. The total gross capacity addition is expected to amount to 4,100 GW over the period, with 48% of this addition planned for installation by 2020.

The cumulative investment during 2009– 2035 is expected to amount to US\$ 16.9 trillion, with US\$ 9.8 trillion needed in generation and US\$ 7.1 trillion in T&D. The share of coal in total electricity generation is expected to decrease from 41% in 2009 to 33% in 2035. Non-hydro renewable energy sources – biomass, wind, solar, geothermal, wave and tidal energy – are expected to continue gaining share of the market, accounting for almost 15% of generation in 2035, up from 2% in 2009. The share of nuclear power (14% in 2009) is not expected to increase by 2035.

Global Electrical Equipment Industry

The global EE industry consists of the following two segments:

- a. The global heavy electrical equipment market, including boilers, turbines, generators, wind turbines, solar power systems, etc.
- b. The global T&D equipment market, including electric power cables, transformers, electrical switchgear, transmission line towers, conductors, control equipment, meters, etc.

The global EE market is expected to increase from a cumulative size of more than US\$ 3 trillion (2008-15) to US\$ 6.8 trillion (2016-30). This translates into around 2% CAGR over the long term.

INDIAN POWER AND ELECTRICAL EQUIPMENT INDUSTRY

Power is a necessary fuel for a growing economy. The Indian economy is on a rising path targeting GDP growth rate of 8-9%. To achieve this growth, it is imperative that proper power infrastructure is in place. India has the fifth-largest generation capacity in the world with an installed capacity of over 211 GW, as on 31st January, 2013 and is also the sixth largest electricity consumer, accounting for 3.4% of total global consumption. India's per capita

consumption of electricity was 879 kWh in 2011-12. The industrial sector, due to increasing capacity additions, has the highest demand for electricity across all sectors and is expected to remain high. The domestic and commercial sectors are likely to experience a steady increase in demand for electricity, but the share of agriculture is expected to see a decline in the coming years.

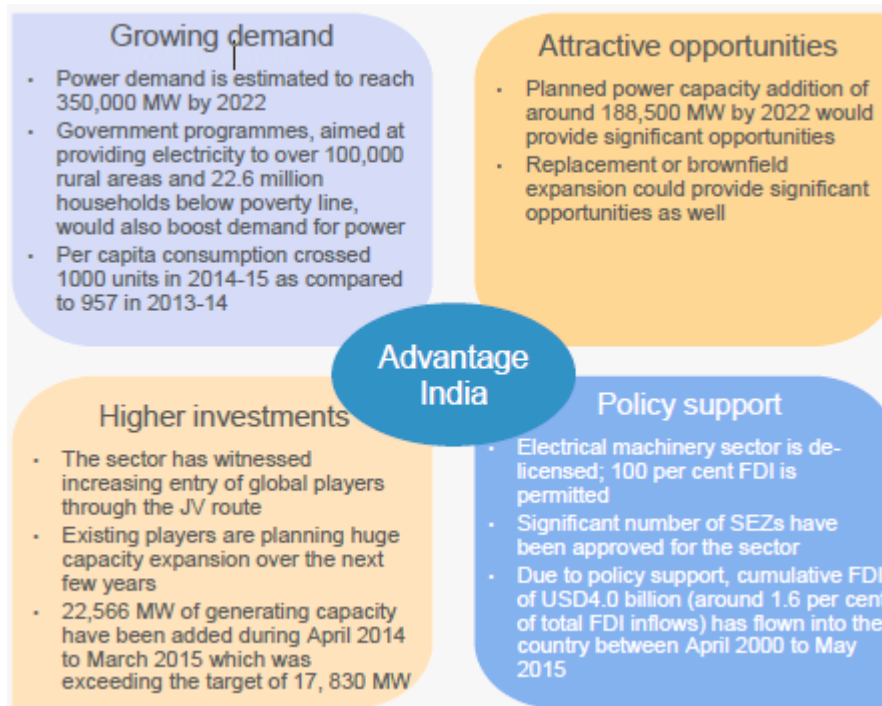

Thermal energy accounts for the major share of generation in India. Share of wind and other renewable forms of energy currently stands at around 12% of the total installed capacity. Government plans to increase the share of power generated from renewable sources in the coming Plans. India currently stands as the 5th largest and 3rd largest producer in the world of hydro and wind energy respectively.

With envisioned capacity additions, India is expected to reach an installed capacity of 400 GW by 2022. This increase will be in line with the country's GDP growth plans of 8-9% per year. Capacity addition in the 11th Plan has been 69% of the original target, which is encouraging. This is expected to increase further in the 12th Plan.

The Indian electrical equipment industry has performed strongly over the last decade. However, if the industry wants to become globally competitive and more importantly, if India is to achieve the planned power generation and transmission capacity addition targets along with growth of infrastructure and other industrial sectors, it is important that the electrical equipment industry maintains a high rate of growth and responds to domestic and global changes effectively. The industry should be able to enhance its level of competitiveness by focussing on employee productivity, plant productivity, automation and upgrading of manufacturing practices, product innovation, etc. Government participation in these initiatives will accelerate the growth process. To enable domestic equipment manufacturers to compete in domestic and international markets with other multinational players, the policies of the Government of India along with the State Governments have to provide a level playing field in the country.

ADVANTAGE OF ELECTRICAL MACHINERY INDUSTRY

(Source: Report Electrical Machinery Market & Opportunities www.ibef.org)

India has a number of advantages in the manufacturing sector that make it an attractive investment destination. Apart from a large and growing domestic market, it also has a well-developed supplier base, availability of skilled manpower at relatively lower costs, supportive regulatory environment and good support infrastructure. All these are positive drivers for potential investors to invest in the electrical machinery industry. Specifically, the following factors are indicative of the attractiveness of the sector:

- Increasing importance of the industrial sector – The industrial sector in India is growing at over 10 per cent, as compared to the overall GDP growth of 8 per cent, indicating the increasing significance of this sector in the economy. As industry is one of the largest consumers of power, growth in industry is driving demand for power, which in turn drives demand for electrical machinery

- Infrastructure development – The Government of India has taken up infrastructure development as a priority area and large investments continue to be made in this area. Growth in housing and retail construction, which are major consumers of electricity also indicate a sustained demand in growth for power in the future.
- Increased electrification – The Government is focusing on increasing the penetration of power supply in villages. Along with reach, the focus is also on improving the quality of power supplied. The Indian Railways is looking at increasing the share of electric locomotives and trains in an effort to reduce costs and pollution.
- Investments planned in expanding capacities in the power sector - The investments in the Indian electrical machinery industry by 2012 are expected to be about US\$ 105 billion. The bulk of the new investment is expected to be in increasing generation and transmission capacity, as depicted in the chart below.

OUR BUSINESS

Our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the chapter titled “Forward-Looking Statements” beginning on page 16 of this Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Information” beginning on pages 17 and 154, respectively.

OVERVIEW

Incorporated in the year 1999, we are a battery manufacturing Company, manufacturing & marketing our products under our flagship brand “Star Gold”. Our Company, Goldstar Power Limited is located at Hapa, Jamnagar on Jamnagar-Rajkot Highway, Gujarat with an integrated plant wherein battery scrap and discarded batteries procured from dealers and retailers are converted to finished product.

Our Company is promoted by Mulji Pansara and Amratlal Pansara. Both our promoters are subscribers of our Company and are directors since inception. We started by manufacturing of battery plates and gradually moved to forward and backward stages of manufacturing. Later, in the year 2006, Navneet Pansara, son of Mulji Pansara joined our Company as Director and since then is involved in all day to day activities of our Company. In the year 2008, Vishal Pansara, younger son of Mulji Pansara joined our Company who leads the marketing department of our Company.

We believe in manufacturing and delivering quality products and are dedicated towards supply of quality products by controlling the procurement of standard raw material, monitoring the process parameters, maintaining appropriate measures to manage hazardous materials and to comply with applicable statutory and regulatory requirements of our products. Integrated plant and quality driven products are our major strengths. Our Company’s major revenue is from sale of Battery and Lead Plates various measures ranging from IST 1000 to IST 2200, GS 400 to GS 1800 and GST, GSD and GSV versions. Our product range covers various types of batteries including automotive batteries, tubular batteries, SMF series batteries, VRLA batteries, Solar batteries, Pure Lead and Alloy batteries.

Our manufacturing facility is equipped with requisite infrastructure including machinery, other handling equipment to facilitate smooth manufacturing process. We endeavour to maintain safety in our premises by adhering to key safety norms. Our manufacturing process is integrated from procurement of raw materials to final testing.

Our Company has received Rashtriya Vikas Ratan Gold Award from International Integration and Growth Society in 2005 for Individual Achievement for Social and Economic Development.

Currently our Company caters to all three segments of market viz. exports, domestic/after sales market and OEM. We have a widespread customer base with our domestic customer base situated in various regions of the country and our international customers situated across varied countries like Uganda, Nepal, Lebanon, etc. Our batteries are generally used in cars manufactured by Tata, Maruti and Mahindra. However, the batteries are used as a replacement by car owners and not as stock batteries by car manufacturers Our Company’s significant revenue is dependent on Amara Raja Batteries Limited who sell the same to OEMs.

Our batteries have life of around 42 – 48 months from the date of use. Batteries once used fully, cannot be re-used, however can be recycled to extract lead from it which is used to manufacture new batteries.

Our total revenues from operations for the financial year 2016-17 are Rs. 5481.20 lakhs as compared to Rs. 4002.91 and Rs. 3748.10 lakhs in financial year 2015-16 and 2014-15 respectively. Our profit before tax and depreciation for the financial year 2014-15 was Rs. 74.99 lakhs which increased to Rs. 110.24 lakhs in financial year 2015-16 and Rs. 226.63 lakhs in financial year 2016-17.

COMPETITIVE STRENGTHS

Experienced Promoters & Dedicated Marketing Team

Our Promoter, Mulji Pansara, has more than four decades of experience in this industry. In addition, we believe the strength and entrepreneurial vision of our Promoters and senior management has been instrumental in driving our growth and implementing our strategies. In addition, we have an experienced team of employees. We are led by a dedicated senior management team with several decades of experience in battery manufacturing. We believe our senior management team leverages our market position and their collective experience and knowledge in the industry, to execute our business strategies and drive our future growth. Our Company's marketing is headed by Vishal Pansara, Director of our Company; has a blend of youth and experienced personnel who serve the Company with their skills. Our Company's marketing team develops and maintains cordial relations with our customers by continuously following-up with the existing customers and approaching new customers.

Integrated Plant

We have an integrated business model which encompasses a combination of activities including recycling of discarded batteries, manufacturing and supply of batteries. We believe our integrated operations, together with our quality control measures, scale operations and efficient management systems optimize our cost structure and ensure quality products. We engage with retailers and dealers of batteries to purchase such batteries, process the same to extract lead from the battery and use it to manufacture the final product. Plastic cover is sold as scrap in domestic market. We have an integrated approach to our manufacturing process and thus make our process more cost efficient as compared to other players in the market. We also help solving environmental problems by procuring such hazardous waste and recycling the same to manufacture final product.

Strong Relationship with Amara Raja Batteries Limited

We are one of the manufacturers and suppliers of batteries to Amara Raja Batteries Limited under their brand name of "Amaron". We believe that our operations and quality control processes have enabled us to develop strong relationships with them over the years. Sale to ARBL accounted to 47.14% of our revenue from operations for the financial year 2016-17. Our purchase model involves bulk purchase of raw materials as we have an agreement with Amara Raja Batteries Limited to supply finished products with their brand name to their dealers on continuous basis based on their purchase order. As we have OEM (Original Equipment Manufacturer) business model, we have an added advantage and larger order base compared to other players who manufacture the same on Job work basis.

Quality Control

We believe that we are a quality focused company. We are committed to maintain quality and at all steps from procurement till dispatch. We have established a quality control team which has the responsibility to ensure compliance with manufacturing practices. We have in-house testing laboratory to test our raw materials to match the quality standards. Before commencement of the manufacturing process, the raw materials purchased by our Company have to undergo a quality check, to ensure that they are of relevant quality and match the standards as specified. The finished products are checked in our in house testing laboratory to ensure that the same is of relevant standards and design as specified by the customer; the products are then packed and dispatched.

Diversified product portfolio:

Our product portfolio includes a range of batteries as well as customer specific batteries. Wide range of products and ability to manufacture specialised products enable us to cater to evolving consumer

needs. Our batteries are used by inverter manufacturers, automobile industry, general industrial applications, solar power plants, UPS applications for Power Back up, etc. Our product range helps us to achieve economies of scale and provides us an advantage in case of down turn in any industry in which we supply.

BUSINESS STRATEGY

Improve and increase operational efficiencies

We will continue to focus on further increasing our operations and improving operational effectiveness at our production facilities. Higher operational effectiveness results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over a higher number of units sold, thereby increasing profit margins. We will also continue to identify various strategic initiatives to improve our operational efficiencies and reduce operating costs. We shall continue to focus on investing in automation, modern technology and equipment to continually upgrade our products including the quality of our products to address changing customer preferences as well as to improve operational efficiency. We continue to target economies of scale to gain increased negotiating power on procurement and to realize cost savings through centralized deployment and management of production, maintenance, accounting and other support functions.

Expand our retail consumer base

We intend to expand our retail consumer base by developing and engaging more dealers and distributors in India for our products and also aim to grow direct sales to retail consumer products by setting up branches and service station for after sale service. We aim to achieve this through marketing of our brands and expansion of our distribution network to promote our brand visibility and continue to evaluate potential sales growth for specific products and cost of distribution from time to time. We also intend to engage stockists in revenue generating area as well as other existing and new markets in various states.

Improve capacity utilization

We aim to focus on further integrating our operations and improving capacity utilization at our production facilities by introducing additional product lines that enable us to effectively utilize our machines. Higher capacity utilization results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over a higher number of units sold, thereby increasing profit margins. For further information, please see the section entitled “*Our Business – Capacity Utilization*” in this section.

Pursue international growth opportunities

We believe that there exist substantial opportunities to grow our business internationally. Further, we intend to mainly focus on the institutional and retail customers in the future in these geographies to scale up our revenues. Historically our revenue has been dependent on domestic market. We intend to develop new distribution channels in international geographies and upscale our export operations to sell higher volumes of our products and aim to expand our retail presence.

PRODUCT RANGE

Our Company is engaged in manufacturing of batteries and its components which cater to various industries such as Inverter/UPS manufacturers, Automobile, General industrial applications and Solar Energy Storage.

Our product range includes the following products:

Automotive Batteries

Automotive batteries are rechargeable battery that supplies electrical energy to a motor vehicle. They are also known as an SLI battery (starting-lighting-ignition) as main purpose of such batteries is to start the engine. Starting discharges less than three per cent of power of battery capacity and thus SLI batteries are designed to release a high burst of current and then be quickly recharged.

The SLI battery supplies the extra power necessary when the vehicle's electrical requirements exceed the supply from the charging system. It acts as a stabilizer, evening out potentially damaging voltage spikes. SLI batteries are lead-acid type, using six series-connected cells to provide a nominal 12 volt system (in most passenger vehicles and light trucks), or twelve cells for a 24 volt system in heavy trucks or earth-moving equipment.

Battery electric vehicles are powered by a high-voltage electric vehicle battery, but they generally have an automotive battery as well, so that they can use standard automotive accessories which are designed to run on 12 V.

Application: Automotive Batteries are used in two wheelers, four wheelers, passenger and commercial road carriers.

Tubular Batteries

A tubular battery uses technology that seals the active material in polyester tubes called gauntlets, instead of pasting it on the surface of the plate. There's no shedding or corrosion, ensuring long life of such batteries. Owing to their toughness and durability, tubular batteries can operate at extreme temperatures, and are used in high cyclic applications involving frequent and prolonged power outages. Tubular Batteries are used in inverters for domestic and commercial use.

Application: Tubular Batteries are used for Inverters/ UPS for Power Back up

SMF Series Batteries

SMF Series Batteries have similar application to those of Automotive Batteries and are used mainly in cars. This range of SMF (Sealed Maintenance Free) Car Batteries are manufactured keeping India's harsh weather and road condition and having the ability to withstand such weather conditions. SMF Batteries feature lead calcium grids (lead calcium technology) for improved resistance to corrosion, overcharging, gassing, water usage, self-discharge and thermal runaway, all of which limit battery life in conventional lead acid batteries. The SMF batteries are flat plate batteries and using "calcium/calcium alloy" which do not require topping-up with water during service life. It incorporates sealed covers with built in flame arresters for better resistance to acid loss, electrolyte contamination and explosions from external sparks.

Application: Majorly used in Cars and Four Wheelers.

VRLA Batteries

VRLA Batteries are valve regulated lead-acid battery which is prepared using Lead paste. Absorbed Glass Mat (AGM) types of VRLA can be mounted on any orientation, and do not require constant maintenance. They are widely used in large portable electrical devices, off-grid power systems and similar roles, where large amounts of storage are needed at a lower cost than other low-maintenance technologies like lithium-ion.

Application: Majorly in two wheelers and UPS

Solar Batteries

Solar Batteries are designed to have low antimony alloy which reduce the topping up frequency, making the battery as low maintenance. Recognizing the importance of alternative energy source like solar power, we have ventured into producing solar batteries. Our solar batteries are featured with fast charging and low discharge rates which are designed to suit wide range of Solar Panels.

Application: Majorly in Solar Photovoltaic System, Solar Power Plant and Solar-Wind Hybrid System.

Pure Lead and Lead Alloys

We manufacture pure lead and lead alloys from discarded batteries after extracting lead from them. Our alloying plant is capable to produce all kind of Lead Alloys as per the customer requirement like Antimonial, Calcium and Selenium Lead Alloy, etc. We have different alloying kettles of various

capacities accompanied by automatic and high efficiency furnace oil burners equipped with preheating arrangements. Emissions control is achieved and our alloys are dross-free. We provide in-house optical emission spectrophotometer test reports with the same which includes 16 elemental test report.

Application: Majorly used by industries engaged in manufacturing batteries

Red Lead

Chemically known as Lead Tetra Oxide, is an orange red to brick red powder. We manufacture Red Lead specifically for Lead Acid Storage Batteries. Our manufacturing plant for Red Lead has a Barton plant. Potassium is mixed with Lead to produce Red Lead.

Application: Majorly used for manufacturing battery and lead crystal glass.

Grey Lead

The Grey Lead oxide is also known lead sub oxide, grey oxide and battery oxide. The Grey Oxide is produced in ball mill plant & the process is an exothermic reaction.

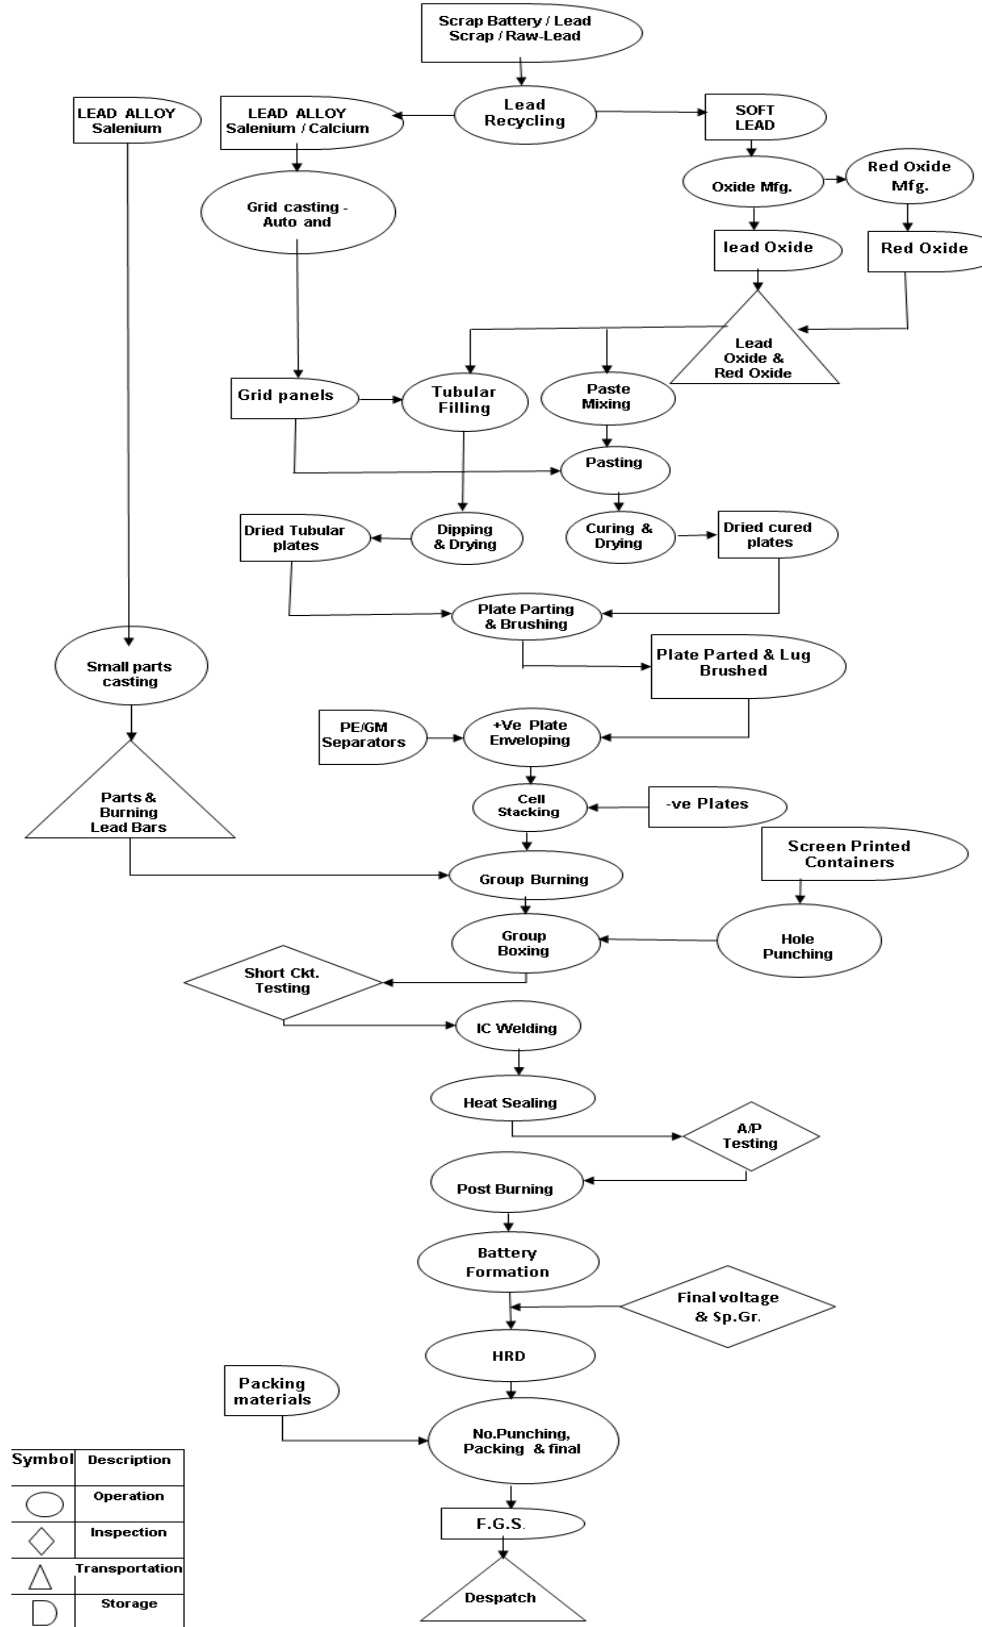

Application: Majorly used for manufacturing battery and lead crystal glass.

Processing of Discarded Batteries:

Scrap and discarded batteries are received as raw materials at our unit. Cases of discarded batteries are broken out and lead extracted from such discarded batteries is placed inside the furnace. Furnace is ignited and filled with charcoal and after completion of heating process, molten raw lead is accumulated in barrel. Cases of batteries (plastic) are sold as scrap in local market.

Grinding of Lead:

Besides extracting lead from discarded batteries, we also purchase lead ingots from domestic suppliers. Lead ingots and barrels are sent for grinding where thin fine powder is made of lead. The powder is then forwarded for oxidation with Red lead at around 450 degrees and sent for oxidation with Grey Lead at around 150 degrees.

Plate Making:

Lead is casted into grids; these casted grids are kept for two days after curing. The Lead Oxide (active material) mixed with sulphuric acid and water which forms a paste of lead oxide lead sulphate. This paste is then applied on the casted grids for putting and curing for two days. The plates are kept for curing in racks for drying. These dried plates are ready for battery manufacturing.

Assembly:

The plates are grouped using the group burning rack and arranged for assembly. Separators are inserted between negative and positive plates. Assembled container is then connected with each cell by welding process and batteries are sealed by heat sealing process.

Acid Filling and Charging:

After assembly, the batteries are forwarded to acid filling where they are filled with acid in requisite proportion. Filled batteries are sealed and sent for charging. Charged batteries are packed in corrugated boxes and sent for delivery across our dealers.

OUR RAW MATERIALS

Our major raw materials include scrap and discarded batteries, lead ingots, plastic containers, chemicals like sulphuric acid, etc. from domestic suppliers.

Batteries (Management and Handling) Rules, 2001

These rules are applicable to every manufacturer, importer, re-conditioner, assembler, dealer, recycler, auctioneer, consumer and bulk consumer involved in manufacture, processing, sale, purchase and use of batteries or components thereof. The rules provide the definition of various terms such as act, assembler, auction, auctioneer, battery, bulk consumers, components, and dealer. The responsibilities of a consumer are to dispose the batteries in the manner prescribed by the dealer, manufacturer, importer, assembler, registered recycler, re-conditioner or at the designated collection centres. They are required to file half-yearly return with the State Board. Bulk consumers or their user units may auction used batteries to registered recycler only. The recyclers have to apply to Ministry of Environment and Forest or agency and ensure strict compliance of terms and condition for reprocessing batteries and also submit annual returns to the State Board and make available of the quantities relating to the used of used batteries ,sources, quantities and metal yield. Create public

awareness for hazards through publications, poster and obligation to return battery to registered dealers or deliver at designated collection centres.

Industrial Policy of Relevant State

Gujarat Industrial Policy 2015

Gujarat has witnessed strong growth

MSME sector has a special importance as this is the sector which belongs to common man. Gujarat Government wishes to strengthen the sector by making it more technology-driven. This type of support will come by way of interest subsidy for manufacturing and service sector, venture capital assistance, quality certification, technology acquisition fund, patent assistance for national and international, energy and water conservation audit, market development assistance and support, MSMEs for credit rating, raising capital through MSE exchange, reimbursement of CGTSME scheme for collateral free loan, state awards under MSMEs and skill development etc. Support would also be extended for development of ancillary and auxiliary enterprises for labour intensive industries.

The Government of Gujarat will constitute separate awards for MSMEs. The awards will be for achieving excellence through growth and production profit, quality improvement measures, Environment improvement measures and Innovation and new product/process/technology development. The policy encourages adoption of new and innovative technologies by providing financial support will be provided to each cluster for every innovative technology, setting up R&D Institutions, setting new laboratories, financial support through partial reimbursement of cost for filing domestic patents and international patents.

Gujarat government shall be taking market development initiatives with the intention of giving enhanced visibility to local produce from large industries and specifically from MSMEs. Government of Gujarat stresses on “Zero Defect” to produce globally-competitive, locally manufactured goods. One of the expansive marketing practices around the globe is participation in international and domestic trade fairs to show one’s products or wares. Government of Gujarat will make market credit available to MSMEs.

Quality improvement is strongly envisaged in the new industrial policy. The assistance will be granted by national (approved by quality council of India) and international certification. The policy also intends to encourage use of enterprise resources planning system (ERP) for MSMEs. Government of Gujarat also provides assistance for raising capital through SME exchange on one time basis.

Provisions of the Trade Union Act, 1926 provides that any dispute between employers and workmen or between workmen and workmen, or between employers and employers which is connected with the employment, or non-employment, or the terms of employment or the conditions of labour, of any person shall be treated as trade dispute. For every trade dispute a trade union has to be formed. For the purpose of Trade Union Act, 1926, Trade Union means combination, whether temporary or permanent, formed primarily for the purpose of regulating the relations between workmen and employers or between workmen and workmen, or between employers and employers, or for imposing restrictive condition on the conduct of any trade or business etc.

The Sexual Harassment of Women at workplace (Prevention, Prohibition and Redressal) Act, 2013

In order to curb the rise in sexual harassment of women at workplace, this act was enacted for prevention and redressal of complaints and for matters connected therewith or incidental thereto. The terms sexual harassment and workplace are both defined in the act. Every employer should also constitute an "Internal Complaints Committee" and every officer and member of the company shall hold office for a period of not exceeding three years from the date of nomination. Any aggrieved woman can make a complaint in writing to the Internal Committee in relation to sexual harassment of female at workplace. Every employer has a duty to provide a safe working environment at workplace which shall include safety from the persons coming into contact at the workplace, organising awareness programs and workshops, display of rules relating to the sexual harassment at any conspicuous part of the workplace, provide necessary facilities to the internal or local committee for dealing with the complaint, such other procedural requirements to assess the complaints.

Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979

This Act has been enacted with an aim to regulate the employment of inter-state migrant workmen and to provide for their conditions of service. It is applicable to every establishment employing five or more inter-state migrant workmen or having employed in the past twelve months and to every contractor who employs or who employed five or more inter-state migrant workmen in the past twelve months. Every Principal Employer of the establishment employing inter-state migrant workmen has to make an application for the registration of the establishment in the prescribed manner and time. Also a contractor employing inter-state migrant workmen has to obtain a license for the same from the licensing officer appointed for the purpose by the Central or the state Government. The license is valid only for a specified period and requires to be renewed at its expiry. The Act levies some duties on the principal employer and the contractor. The contractor is to provide for adequate wages, medical

facilities and other benefits while it is the responsibility of the principal employer to provide for the displacement allowance and journey allowance to the workmen.

Industrial Disputes Act, 1947 (“ID Act”) and Industrial Dispute (Central) Rules, 1957

The ID Act and the Rules made thereunder provide for the investigation and settlement of industrial disputes. The ID Act was enacted to make provision for investigation and settlement of industrial disputes and for other purposes specified therein. Workmen under the ID Act have been provided with several benefits and are protected under various labour legislations, whilst those persons who have been classified as managerial employees and earning salary beyond prescribed amount may not generally be afforded statutory benefits or protection, except in certain cases. Employees may also be subject to the terms of their employment contracts with their employer, which contracts are regulated by the provisions of the Indian Contract Act, 1872. The ID Act also sets out certain requirements in relation to the termination of the services of the workman. The ID Act includes detailed procedure prescribed for resolution of disputes with labour, removal and certain financial obligations up on retrenchment. The Industrial Dispute (Central) Rules, 1957 specify procedural guidelines for lock-outs, closures, lay-offs and retrenchment

Service Tax

Chapter V of the Finance Act, 1994 as amended, provides for the levy of a service tax in respect of 'taxable services', as specified in entry 39 defined therein. The service provider of taxable services is required to collect service tax from the recipient of such services and pay such tax to the Government. Every person who is liable to pay this service tax must register himself with the appropriate authorities. According to Rule 6 of the Service Tax Rules, every assessee is required to pay service tax in TR 6 challan by the 5th / 6th of the month immediately following the month to which it relates. Further, under Rule 7 (1) of Service Tax Rules, the Company is required to file a half yearly return in Form ST 3 by the 25th of the month immediately following the half year to which the return relates.

Central Sales Tax Act, 1956 ("CST")

The main object of this act is to formulate principles for determining (a) when a sale or purchase takes place in the course of trade or commerce (b) When a sale or purchase takes place outside a State (c) When a sale or purchase takes place in the course of imports into or export from India, to provide for Levy, collection and distribution of taxes on sales of goods in the course of trade or commerce, to declare certain goods to be of special importance trade or commerce and specify the restrictions and conditions to which State Laws imposing taxes on sale or purchase of such goods of special importance (called as declared goods) shall be subject. CST Act imposes the tax on interstate sales and states the principles and restrictions as per the powers conferred by Constitution.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taken out of India to a place outside India. Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code). Imported goods in India attract basic customs duty, additional customs duty and education cess. The rates of basic customs duty are specified under the Customs Tariff Act 1975. Customs duty is calculated on the transaction value of the goods. Customs duties are administrated by Central Board of Excise and Customs under the Ministry of Finance.

The Central Excise Act, 1944

The Central Excise Act, 1944 ("Central Excise Act") consolidates and amends the law relating to Central Duties of Excise on goods manufactured or produced in India. Excisable goods under the Act means goods specified in the Schedule to the Central Excise Tariff Act, 1985 as being subject to duty

of excise. Factory means any premises, including the precincts thereof, wherein or in any part of which excisable goods are manufactured, or wherein or in any part of which any manufacturing process connected with the production of these goods being carried on or is ordinarily carried out. Under the Act a duty of excise is levied on all excisable goods, which are produced or manufactured in India as and at the rates, set forth in the First Schedule to the Central Excise Tariff Act, 1985.

Goods and Service Tax (GST)

Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and will be levied by centre on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination based consumption tax GST would be a dual GST with the centre and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made thereunder. It replaces following indirect taxes and duties at the central and state levels:

Central Excise Duty, Duties of Excise (Medicinal and Toilet Preparations), additional duties on excise – goods of special importance, textiles and textile products, commonly known as CVD – special additional duty of customs, service tax, central and state surcharges and cesses relating to supply of goods and services, state VAT, Central Sales Tax, Luxury Tax, Entry Tax (all forms), Entertainment and Amusement Tax (except when levied by local bodies), taxes on advertisements, purchase tax, taxes on lotteries, betting and gambling.

It is applicable on all goods except for alcohol for human consumption and five petroleum products.

Taxpayers with an aggregate turnover of Rs. 20 lakhs would be exempt from tax. The exemption threshold for special category of states like North-East shall be Rs. 10 lakhs. Small taxpayers with an aggregate turnover in preceding financial year upto Rs. 75 lakhs (50 lakhs in case of special category states) may opt for composition levy. Under GST, goods and services are taxed at the following rates, 0%, 5%, 12% and 18%. There is a special rate of 0.25% on rough precious and semi-precious stones and 3% on gold. In addition a cess of 15% or other rates on top of 28% GST applies on few items like aerated drinks, luxury cars and tobacco products. The rate of tax for CGST and SGST/UTGST shall not exceed –

- a. 2.5% in case of restaurants etc.
- b. 1% of the turnover in state/UT in case of manufacturer
- c. 0.5% of the turnover in state/ UT in case of other supplier

Export and supplies to SEZ shall be treated as zero-rated supplies. Import of goods and services would be treated as inter-state supplies. Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen digit registration number known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple location in a state, a separate application will be made for registration of each and every location. The registered assessee are then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon.

OTHER LAWS

The Factories Act, 1948

The Factories Act, 1948 ("Factories Act") aims at regulating labour employed in factories. A "factory" is defined as "any premises...whereon ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or whereon twenty or more workers are working, or were 81 working on any day of the preceding twelve months, and in any part of which a manufacturing process is carried on without the aid of power, or is ordinarily so carried on...". The main aim of the said Act is to ensure adequate safety measures and to promote the health and welfare of the workers employed in factories initiating various measures from time to time to ensure that adequate standards of safety, health and welfare are achieved at all the places.

Under the Factories Act, the State Government may make rules mandating approval for proposed factories and requiring licensing and registration of factories. The Factories Act makes detailed provision for ensuring sanitary conditions in the factory and safety of the workers and also lays down permissible working hours, leave etc. In addition, it makes provision for the adoption of worker welfare measures. The prime responsibility for compliance with the Factories Act and the rules thereunder rests on the "occupier", being the person who has ultimate control over the affairs of the factory. The Factories Act states that save as otherwise provided in the Factories Act and subject to provisions of the Factories Act which impose certain liability on the owner of the factory, in the event there is any contravention of any of the provisions of the Factories Act or the rules made thereunder or of any order in writing given thereunder, the occupier and the manager of the factory shall each be guilty of the offence and punishable with imprisonment or with fine. The occupier is required to submit a written notice to the chief inspector of factories containing all the details of the factory, the owner, manager and himself, nature of activities and such other prescribed information prior to occupying or using any premises as a factory. The occupier is required to ensure, as far as it is reasonably practicable, the health, safety and welfare of all workers while they are at work in the factory.

Shops and establishments laws in various states

Under the provisions of local Shops and Establishments laws applicable in various states, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

ENVIRONMENTAL LEGISLATIONS

The Environment Protection Act, 1986 ("Environment Protection Act")

The purpose of the Environment Protection Act is to act as an "umbrella" legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

Air (Prevention and Control of Pollution) Act, 1981

Air (Prevention and Control of Pollution) Act 1981 (“the Act”) was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Act has declared several areas as air pollution control area and also prohibits the use of certain types of fuels and appliances. Prior written consent is required of the board constituted under the Act, if a person intends to commence an industrial plant in a pollution control area.

Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention and Control of Pollution) Act 1974 (“the Act”) was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Act prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Act.

Hazardous Waste (Management and Handling) Rules, 1989

The Hazardous Waste (Management and Handling) Rules, 1989, as amended, impose an obligation on each occupier and operator of any facility generating hazardous waste to dispose of such hazardous wastes properly and also imposes obligations in respect of the collection, treatment and storage of hazardous wastes. Each occupier and operator of any facility generating hazardous waste is required to obtain an approval from the relevant state pollution control board for collecting, storing and treating the hazardous waste.

The Public Liability Insurance Act, 1991

This Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

National Environmental Policy, 2006

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of National Environmental Policy:

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor
- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development
- Efficiency in Environmental Resource Use
- Environmental Governance

- Enhancement of resources for Environmental Conservation

INTELLECTUAL PROPERTY LEGISLATIONS

In general the Intellectual Property Rights includes but is not limited to the following enactments:

- The Patents Act, 1970
- Indian Copyright Act, 1957
- The Trade Marks Act, 1999

Indian Patents Act, 1970

A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process producing that product. The term invention means a new product or process involving an inventive step capable of industrial application.

The Copyright Act, 1957

Copyright is a right given by the law to creators of literary, dramatic, musical and artistic works and producers of cinematograph films and sound recordings. In fact, it is a bundle of rights including, inter alia, rights of reproduction, communication to the public, adaptation and translation of the work. There could be slight variations in the composition of the rights depending on the work.

Trade Marks Act, 1999

The Trade Marks Act, 1999 (the “**Trade Marks Act**”) provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The Trade Marks Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

GENERAL LAWS

- Apart from the above list of laws – which is inclusive in nature and not exhaustive - general laws like the Indian Contract Act 1872, Specific Relief Act 1963, Negotiable Instrument Act 1881, The Information Technology Act, 2000, Sale of Goods Act 1930 and Consumer Protection Act 1986 are also applicable to the company.

OTHER LAWS:

Foreign Trade (Development and Regulation) Act, 1992

The Development and Regulation of foreign trade by facilitating imports and exports from and to India. The Import-Export Code number and licence to import or export includes a customs clearance permit and any other permission issued or granted under this act. The Export and Import policy, provision for development and regulation of foreign trade shall be made by the Central Government by publishing an order. The Central Government may also appoint Director General of Foreign Trade (DGFT) for the purpose of Export-Import Policy formulation.

If any person makes any contravention to any law or commits economic offence or imports/exports in a manner prejudicial to the trade relations of India or to the interest of other person engaged in

imports or exports then there shall be no Import Export Code number granted by Director-General to such person and if in case granted shall stand cancelled or suspended. Provision of search and seizure of Code of Criminal Procedure, 1973 shall apply to every search and seizure made under this Act. In case of appeals in a case the order made by the appellate authority shall be considered to be final. The powers of all the civil court under Code of Civil Procedure, 1908 shall vest in him.

The EXIM Policy is a set of guidelines and instructions established by the DGFT in matters related to the export and import of goods in India. This policy is regulated under the said act. Director General of Foreign Trade (herein after referred to as DGFT) is the main governing body in matters related to the EXIM Policy. The Act shall provide development and regulation of foreign trade by facilitating imports into, and augmenting exports from India. Trade Policy is prepared and announced by the Central Government (Ministry of Commerce).

Foreign Exchange Management Act, 1999

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999("FEMA") and the rules and regulations promulgated there under. The act aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve Bank or to such other authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India)Regulations, 2000 ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India

THE FOREIGN DIRECT INVESTMENT

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("FDI") through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP"), has issued consolidated FDI Policy Circular of 2016 ("FDI Policy 2016"), which with effect from June 7, 2016, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. Further, DIPP has issued Press note 5, dated June 24, 2016

which introduces few changes in FDI Policy 2016. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2016 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“RBI”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2016, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion of our financial condition and results of operations should be read in conjunction with our restated financial statements for the financial years ended March 31, 2017, 2016 and 2015 prepared in accordance with the Companies Act and Indian GAAP and restated in accordance with the SEBI ICDR Regulations, including the schedules, annexure and notes thereto and the reports thereon, included in the section titled "Financial Statements" on page 154 of this Prospectus.

Indian GAAP differs in certain material aspects from U.S. GAAP and IFRS. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Prospectus, nor do we provide reconciliation of our financial statements to those under U.S. GAAP or IFRS. Accordingly, the degree to which the Indian GAAP financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with the Companies Act, Indian GAAP and SEBI ICDR Regulations.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those set forth in "*Risk Factors*" and "*Forward-Looking Statements*" on pages 16 and 17, of this Prospectus beginning respectively.

The Management's Discussion and Analysis of Financial Condition and Results of Operations, reflects the analysis and discussion of our financial condition and results of operations for the financial years ended March 31, 2017, 2016 and 2015.

OVERVIEW

Incorporated in the year 1999, we are a battery manufacturing Company, manufacturing & marketing our products under our flagship brand "Star Gold". Our Company, Goldstar Power Limited is located at Hapa, Jamnagar on Jamnagar-Rajkot Highway, Gujarat with an integrated plant wherein battery scrap and discarded batteries procured from dealers and retailers are converted to finished product.

Our Company is promoted by Mulji Pansara and Amratlal Pansara. Both our promoters are subscribers of our Company and are directors since inception. We started by manufacturing of battery plates and gradually moved to forward and backward stages of manufacturing. Later, in the year 2006, Navneet Pansara, son of Mulji Pansara joined our Company as Director and since then is involved in all day to day activities of our Company. In the year 2008, Vishal Pansara, younger son of Mulji Pansara joined our Company who leads the marketing department of our Company.

We believe in manufacturing and delivering quality products and our manufacturing process is under constant supervision by Engineers. We are dedicated towards supply of quality products by controlling the procurement of standard raw material, monitoring the process parameters, maintaining appropriate measures to manage hazardous materials and to comply with applicable statutory and regulatory requirements of our products. Integrated plant and quality driven products are our major strengths.

Our Company has received Rashtriya Vikas Ratan Gold Award from International Integration and Growth Society in 2005 for Individual Achievement for Social and Economic Development.

Our Company's major revenue is from sale of Battery and Lead Plates various measures ranging from IST 1000 to IST 2200, GS 400 to GS 1800 and GST, GSD and GSV versions.

Our manufacturing facility is equipped with requisite infrastructure including machinery, other handling equipment to facilitate smooth manufacturing process and easy logistics. We endeavour to maintain safety in our premises by adhering to key safety norms. Our manufacturing process is integrated from procurement of raw materials to final testing.

We have in-house testing laboratory to test our raw materials to match the quality standards. Before commencement of the manufacturing process, the raw materials purchased by our Company have to undergo a quality check, to ensure that they are of relevant quality and match the standards as specified. The finished products are checked in our in house testing laboratory to ensure that the same is of relevant standards and design as specified by the customer; the products are then packed and dispatched.

Today our product range covers various types of batteries including automotive batteries, tubular batteries, SMF series batteries, VRLA batteries, Solar batteries, Pure Lead and Alloy batteries.

Currently our Company caters to all three segments of market viz. exports, domestic/after sales market and OEM like Amara Raja Batteries Limited. We have a widespread customer base with our domestic customer base situated in various regions of the country and our international customers situated across varied countries like Uganda, Nepal, Yemen, Lebanon, etc.

SIGNIFICANT DEVELOPMENTS SUBSEQUENT TO THE LAST FINANCIAL YEAR

In the opinion of the Board of Directors of our Company, since the date of the last financial statements disclosed in this Prospectus, there have not arisen any circumstances that materially or adversely affect or are likely to affect the profitability of our Company or the value of its assets or its ability to pay except implementation of Goods and Service Tax which increased our indirect tax/duties marginally by 0.5% as compared to previous taxation structure

1. The Board of Directors passed a resolution for an Initial Public Offer in their meeting held on July 24, 2017
2. The Board of Directors passed a resolution for Issue of Bonus Shares in their meeting held on July 24, 2017
3. The Board of Directors passed a resolution for appointment of Dhruti Pansara as Chief Financial Officer in their meeting held on July 24, 2017
4. The Board of Directors passed a resolution for appointment of Darshak Thaker as Company Secretary and Compliance Officer in their meeting held on July 24, 2017
5. The Shareholders of the Company passed a special resolution for Initial Public Offer in their meeting held on July 31, 2017
6. The Shareholders of the Company passed an ordinary resolution for appointment of Independent Directors in their Annual General Meeting held on July 31, 2017
7. The Shareholders of the Company passed an ordinary resolution for change in designation of Navneet Pansara as Managing Director and in their Annual General Meeting held on July 31, 2017

9. The Board of Directors passed a resolution for allotment of Bonus Shares in their meeting held on August 2, 2017

FACTORS AFFECTING OUR RESULTS OF OPERATIONS

Our revenues are dependent on sale of batteries to Amara Raja Batteries Limited (“ARBL”). AFor the financial year ended March 31, 2017 sale of batteries to our ARBL amounted for 47.94% of our Revenue from operations. Our business from ARBL is dependent on our continuing relationship with them, the quality of our products and our ability to deliver on their orders. If ARBL does not continue to purchase products from us, or reduce the volume of products purchased from us, our business prospects, results of operations and financial condition may be adversely affected. In the event that ARBL discontinues purchase of products from us, our results of operations and financial condition may be adversely affected. Further, any deterioration in brand image of ARBL or issue in manufacturing of their products may hinder our sales. To the extent that we are unable to effectively manage our operations and risks such as the above (in particular, as we implement our strategy to enter into new markets where we

do not have local knowledge and resources), we may be unable to grow or maintain our sales and profitability, or we may be subject to additional unanticipated costs or legal or regulatory action. As a consequence, our business, financial condition, results of operations and cash flows may be adversely affected.

We are exposed to conditions affecting the end user industries and markets for automobile, inverter/ UPS and solar power industry

We manufacture Battery which is utilised by OEM manufacturers of automobile, Inverter and UPS applications, solar power projects, etc. These batteries are used by many industries and sales of our products are directly dependent on these industries. The end user industries and geographic markets which our products are targeted at may be impacted by global economic or industry conditions, including seasonal trends, volatile fuel prices; rising employee costs and challenges in maintain amicable labour relations as well as compliance with evolving regulatory requirement, changing power and electricity requirement, government initiatives, trade agreements and other factors. Any significant industry downturns in such industries, as well as economic downturns in our geographic markets may significantly affect our revenues from sale of batteries across periods and geographies.

M/S GOLDSTAR BATTERY PRIVATE LIMITED V. REGIONAL DIRECTOR, ESI CORPORATION, AHMEDABAD; LABOUR AND EMPLOYMENT DEPARTMENT, GANDHINAGAR

An application bearing reference no. 3 of 2010 was made by M/s Goldstar Battery Private Limited (hereinafter referred to as “the Applicant”) against Regional Director of ESI Corporation, Ahmedabad and Labour and Employment Department, Gandhinagar (hereinafter collectively referred to as “the Opponents”) before the Employees State Insurance Court at Rajkot under Section 75 and 77 of the Employee State Insurance Act, 1945 (hereinafter referred to as “the Act”). The Applicant claimed that it was not covered under the provisions of the Act since it was situated at Hapa and that it was unreasonable on the part of the Opponents to direct the Applicant to pay contribution. A Stay Application was filed by the applicant as a part of the aforesaid application before the Court to stay the actions of the Opponents. Meanwhile, the ESI Corporation launched a scheme called “SPREE” for promoting registration of Employers and Employees, to encourage registration of all Establishments/Factories and employees coverable under the Act. Hence, the Applicant came under the purview of the scheme and accepted its coverage under the same. However, the matter is pending against the Applicant.

For a detailed description of the main provisions of the Articles of Association relating to voting rights, dividend, forfeiture and lien and / or consolidation / splitting, please refer to the section titled “*Main Provisions of Articles of Association*” beginning on page number 278 of this Prospectus.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

Pursuant to Section 29 of the Companies Act, 2013 the Equity Shares shall be allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- Agreement dated September 13,2017 amongst NSDL, our Company and the Registrar to the Issue; and
- Agreement dated September 14,2017 amongst CDSL, our Company and the Registrar to the Issue.

Since trading of the Equity Shares is in dematerialised form, the tradable lot is 6,000 Equity Share. Allotment in this Issue will be only in electronic form in multiples of one Equity Share subject to a minimum Allotment of 6,000 Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

Allocation and allotment of Equity Shares through this Issue will be done in multiples of 6,000 Equity Share subject to a minimum allotment of 6,000 Equity Shares to the successful applicants.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 106R of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts / authorities in Mumbai, Maharashtra, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States

or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDER

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO BIDDERS

In accordance with Section 72 of the Companies Act, 2013 the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agents of our Company

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the LM, reserve the right to not to proceed with the Issue after the Bid/Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Bid/Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Lead Manager through, the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company withdraws the Issue after the Bid/ Issue Closing Date and thereafter determines that it will proceed with an issue/issue for sale of the Equity Shares, our Company shall file a fresh Prospectus with Stock Exchange.

BID/ ISSUE OPENING DATE

Bid / Issue Opening Date	Wednesday, September 27, 2017
Bid / Issue Closing Date	Friday, September 27, 2017

The above timetable is indicative and does not constitute any obligation on our Company, and the LM. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/Issue Period by our Company, revision of the Price or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Bids and any revision to the same shall be accepted **only between 10.00 a.m. and 5.00 p.m. (IST)** during the Bid/Issue Period. On the Bid/Issue Closing Date, the Bids and any revision to the same shall be accepted between **10.00 a.m. and 5.00 p.m. (IST)** or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Bidders after taking into account the total number of Bids received up to the closure of timings and reported by the Lead Manager to the Stock Exchanges. It is clarified that Bids not uploaded on the electronic system would be rejected. Bids will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date and, in any case, no later than 5.00 p.m. (IST) on the Bid/Issue Closing Date. All times mentioned in this Prospectus are Indian Standard Times. Bidders are cautioned that in the event a large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public issue, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only on Business Days. Neither our Company nor the Lead Manager is liable for any failure in uploading the Bids due to faults in any software/hardware system or otherwise. Any time mentioned in this Prospectus is Indian Standard Time.

Our Company in consultation with the LM, reserves the right to revise the Price during the Bid/ Issue Period.

In case of revision of the Price, the Bid/Issue Period will be extended for at least three additional working days after revision of Price subject to the Bid/ Issue Period not exceeding 10 working days. Any revision in the Price and the revised Bid/ Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a press release and also by indicating the changes on the websites of the Lead Manager and at the terminals of the Syndicate Member.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the Bid cum Application Form, for a particular Bidder, the Registrar to the Issue shall ask for rectified data

MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level and is 100% underwritten.

As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the issue through the Issue Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the issue, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest or other penalty as prescribed under the SEBI Regulations, the Companies Act 2013 and applicable law.

In accordance with Regulation 106 P (1) of the SEBI (ICDR) Regulations, our Issue shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the issue through the Prospectus and shall not be restricted to the minimum subscription level.

Further, in accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will be allotted will not be less than 50 (Fifty).

Further, in accordance with Regulation 106(Q) of the SEBI (ICDR) Regulations, our Company shall ensure that the minimum application size in terms of number of specified securities shall not be less than Rs.1,00,000/- (Rupees One Lakh) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

MIGRATION TO MAIN BOARD

Our company may migrate to the Main board of NSE from SME Exchange on a later date subject to the following:

- *If the Paid up Capital of our Company is likely to increase above Rs. 2,500 lakhs by virtue of any further issue of capital by way of rights issue, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the Main Board), our Company shall apply to NSE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.*

OR

- *If the Paid up Capital of our company is more than Rs. 1,000 lakhs but below Rs. 2,500 lakhs, our Company may still apply for migration to the Main Board and if the Company fulfils the eligible criteria for listing laid by the Main Board and if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.*

The above information is given for the benefit of the Applicants. Our Company and Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Prospectus. Applicants are advised to make their independent investigations and ensure that any single application from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable law or regulation or as specified in the Prospectus.

INFORMATION FOR THE APPLICANTS

1. Our Company and the Lead Managers shall declare the Issue Opening Date and Issue Closing Date in the Prospectus to be registered with the RoC and also publish the same in two national newspapers (one each in English and Hindi) and in one regional newspaper with wide circulation. This advertisement shall be in the prescribed format.
2. Our Company will file the Prospectus with the RoC at least three days before the Issue Opening Date.
3. Any Applicant who would like to obtain the Prospectus and/or the Application Form can obtain the same from our Registered Office.
4. Applicants who are interested in subscribing to the Equity Shares should approach any of the Application Collecting Intermediaries or their authorised agent(s).
5. Applications should be submitted in the prescribed Application Form only. Application Forms submitted to the SCSBs should bear the stamp of the respective intermediary to whom the application form is submitted. Application Forms submitted directly to the SCSBs should bear the stamp of the SCSBs and/or the Designated Branch. Application Forms submitted by Applicants whose beneficiary account is inactive shall be rejected.
6. The Application Form can be submitted either in physical or electronic mode, to the Application Collecting Intermediaries. Further Application Collecting Intermediary may provide the electronic mode of collecting either through an internet enabled collecting and banking facility or such other secured, electronically enabled mechanism for applying and blocking funds in the ASBA Account.
7. Except for applications by or on behalf of the Central or State Government and the officials appointed by the courts and by investors residing in the State of Sikkim, the Applicants, or in the case of application in joint names, the first Applicant (the first name under which the beneficiary account is held), should mention his/her PAN allotted under the Income Tax Act. In accordance with the SEBI Regulations, the PAN would be the sole identification number for participants transacting in the securities market, irrespective of the amount of transaction. Any Application

Form without PAN is liable to be rejected. The demat accounts of Applicants for whom PAN details have not been verified, excluding persons resident in the State of Sikkim or persons who may be exempted from specifying their PAN for transacting in the securities market, shall be “suspended for credit” and no credit of Equity Shares pursuant to the Issue will be made into the accounts of such Applicants.

8. The Applicants may note that in case the PAN, the DP ID and Client ID mentioned in the Application Form and entered into the electronic collecting system of the Stock Exchange by the Bankers to the Issue or the SCSBs do not match with PAN, the DP ID and Client ID available in the Depository database, the Application Form is liable to be rejected.

METHOD AND PROCESS OF APPLICATIONS

1. Applicants are required to submit their applications during the Issue Period only through the following Application Collecting intermediary
 - i) an SCSB, with whom the bank account to be blocked, is maintained
 - ii) a syndicate member (or sub-syndicate member), if any
 - iii) a stock broker registered with a recognised stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) (‘broker’)

An IPO means an offer of specified securities by an unlisted Issuer to the public for subscription and may include an Offer for Sale of specified securities to the public by any existing holder of such securities in an unlisted Issuer.

For undertaking an IPO, an Issuer is *inter-alia* required to comply with the eligibility requirements of in terms of either Regulation 26(1) or Regulation 26(2) of the SEBI ICDR Regulations, 2009, if applicable. For details of compliance with the eligibility requirements by the Issuer, Applicants may refer to the Prospectus.

The Issuer may also undertake IPO under chapter XB of the SEBI (ICDR) Regulations, wherein as per:

- Regulation 106M (1): An issuer whose post-issue face value Capital does not exceed ten crore rupees shall issue its specified securities in accordance with provisions of this Chapter.
- Regulation 106M (2): An issuer, whose post issue face value capital, is more than ten crore rupees and upto twenty five crore rupees, may also issue specified securities in accordance with provisions of this Chapter.

The present Issue is being made under Regulation 106M(2) of Chapter XB of SEBI (ICDR) Regulation.

2.2 OTHER ELIGIBILITY REQUIREMENTS

In addition to the eligibility requirements specified in paragraphs 2.1, an Issuer proposing to undertake an IPO is required to comply with various other requirements as specified in the SEBI ICDR Regulations, 2009, the Companies Act, 1956 and the Companies Act, 2013 as may be applicable (the “Companies Act”), The Securities Contracts (Regulation) Rules, 1957 (the “SCRR”), industry-specific regulations, if any, and other applicable laws for the time being in force. Following are the eligibility requirements for making an SME IPO under Regulation 106M (2) of Chapter XB of SEBI (ICDR) Regulation:

- (a) In accordance with regulation 106(P) of the SEBI (ICDR) Regulations, Issue has to be 100% underwritten and the LM has to underwrite at least 15% of the total issue size.
- (b) In accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, total number of proposed allottees in the Issue shall be greater than or equal to fifty, otherwise, the entire application money will be refunded forthwith. If such money is not repaid within eight days from the date the company becomes liable to repay it, than the Company and every officer in default shall, on and from expiry of eight days, be liable to repay such application money, with interest as prescribed under section 40 of the Companies Act, 2013
- (c) In accordance with Regulation 106(O) the SEBI (ICDR) Regulations, Company is not required to file any Offer Document with SEBI nor has SEBI issued any observations on the Offer Document. The Lead Manager shall submit the copy of Prospectus along with a Due Diligence Certificate including additional confirmations as required to SEBI at the time of filing the Prospectus with Stock Exchange and the Registrar of Companies.
- (d) In accordance with Regulation 106(V) of the SEBI ICDR Regulations, the LM has to ensure compulsory market making for a minimum period of three years from the date of listing of Equity Shares offered in the Issue.
- (e) The company should have track record of at least 3 years
- (f) The company should have positive cash accruals (earnings before depreciation and tax) from operations for at least 2 financial years preceding the application and its net-worth should be positive
- (g) The post issue paid up capital of the company (face value) shall not be more than Rs. 25 Crore.
- (h) The Issuer shall mandatorily facilitate trading in demat securities.
- (i) The Issuer should not been referred to Board for Industrial and Financial Reconstruction.
- (j) No petition for winding up is admitted by a court or a liquidator has not been appointed of competent jurisdiction against the Company.
- (k) No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the Issuer.
- (l) The Company should have a website.
- (m) There has been no change in the promoter of the Company in the one year preceding the date of filing application to NSE for listing on EMERGE segment.

Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter XB of SEBI (ICDR) Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.

As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall

not apply to this Issue.

Thus Company is eligible for the Issue in accordance with regulation 106M(2) and other provisions of chapter XB of the SEBI (ICDR) Regulations as the post issue face value capital exceeds Rs. 1,000 lakhs but does not exceed Rs 2,500 lakhs. Company also complies with the eligibility conditions laid by the EMERGE Platform of NSE for listing of our Equity Shares.

2.3 TYPES OF PUBLIC ISSUES – FIXED PRICE ISSUES AND BOOK BUILT ISSUES

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process (“**Book Built Issue**”) or undertake a Fixed Price Issue (“**Fixed Price Issue**”). An Issuer may mention Floor Price or Price Band in the RHP (in case of a Book Built Issue) and a Price or Price Band in the Prospectus (in case of a fixed price Issue) and determine the price at a later date before registering the Prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The Issuer shall announce the Price or the Floor Price or the Price Band through advertisement in all newspapers in which the pre-issue advertisement was given at least five Working Days before the Issue Opening Date, in case of an IPO and at least one Working Day before the Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities. Applicants should refer to the Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

2.4 ISSUE PERIOD

The Issue shall be kept open for a minimum of three Working Days (for all category of Applicants) and not more than ten Working Days. Applicants are advised to refer to the Application Form and Abridged Prospectus or Prospectus for details of the Issue Period.

Details of Issue Period are also available on the website of Stock Exchange(s).

2.5 MIGRATION TO MAIN BOARD

Our company may migrate to the Main board of NSE from NSE EMERGE on a later date subject to the following:

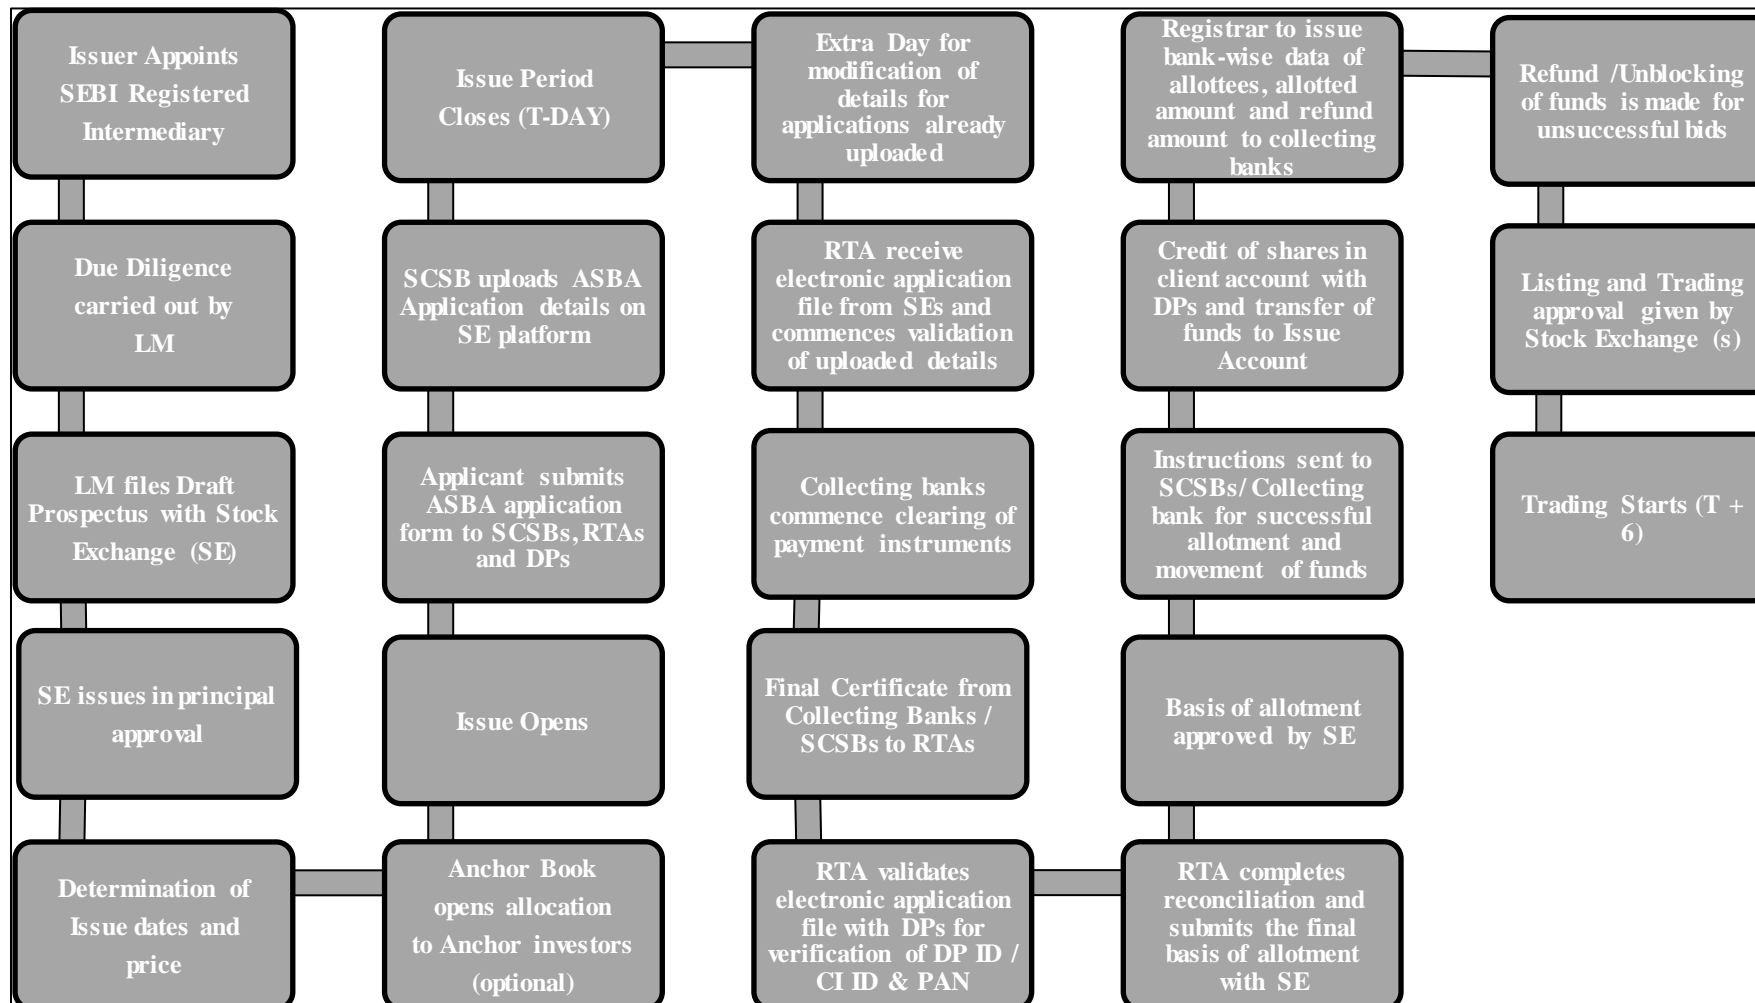

- a. *If the Paid up Capital of our Company is likely to increase above Rs. 2,500 lakhs by virtue of any further issue of capital by way of rights issue, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the Main Board), our Company shall apply to NSE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.*

OR

- b. *If the Paid up Capital of our company is more than Rs. 1,000 lakhs but below Rs. 2,500 lakhs, our Company may still apply for migration to the Main Board and if the Company fulfils the eligible criteria for listing laid by the Main Board and if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.*

2.1 FLOWCHART OF TIMELINES

4.1.1 FIELD NUMBER 1: NAME AND CONTACT DETAILS OF THE SOLE/ FIRST APPLICANT

Applicants should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- (a) **Mandatory Fields:** Applicants should note that the name and address fields are compulsory and e-mail and/or telephone number/ mobile number fields are optional. Applicants should note that the contact details mentioned in the Application Form may be used to dispatch communications in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Application Form may be used by the Issuer, the members of the Syndicate, the Registered Broker and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- (b) **Joint Applications:** In the case of Joint Applications, the Applications should be made in the name of the Applicant whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Applicant would be required in the Application Form and such first Applicant would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Applicant whose name appears in the Application Form or the Revision Form and all communications may be addressed to such Applicant and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- (c) **Impersonation:** Attention of the Applicants is specifically drawn to the provisions of sub section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

Any person who:

- makes or abets making of an application in a fictitious name to a Company for acquiring, or subscribing for, its securities; or
- makes or abets making of multiple applications to a Company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or
- otherwise induces directly or indirectly a Company to allot, or register any transfer of securities to him, or to any other person in a fictitious name,

Shall be liable for action under section 447 of the said Act.

- (d) **Nomination Facility to Applicant:** Nomination facility is available in accordance with the provisions of Section 72 of the Companies Act, 2013. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Applicants should inform their respective DP.

4.1.2 FIELD NUMBER 2: PAN NUMBER OF SOLE /FIRST APPLICANT

- (a) PAN (of the sole/ first Applicant) provided in the Application Form should be exactly the same as the PAN of the person(s) in whose name the relevant beneficiary account is held as per the Depositories' records.
- (b) PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Applications on behalf of the Central or State Government, Applications by officials appointed by the courts and Applications by Applicants residing in Sikkim ("PAN Exempted Applicants"). Consequently, all Applicants, other than the PAN Exempted Applicants, are required to disclose their PAN in the Application Form, irrespective of the Application Amount. An Application Form without PAN, except in case of Exempted Applicants, is liable to be rejected. Applications by the Applicants whose PAN is not available as per the Demographic Details available in their Depository records, are liable to be rejected.

- (c) The exemption for the PAN Exempted Applicants is subject to (a) the Demographic Details received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.
- (d) Application Forms which provide the General Index Register Number instead of PAN may be rejected.
- (e) Applications by Applicants whose demat accounts have been ‘suspended for credit’ are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as “Inactive demat accounts” and demographic details are not provided by depositories.

4.1.3 FIELD NUMBER 3: APPLICANTS DEPOSITORY ACCOUNT DETAILS

- (a) Applicants should ensure that DP ID and the Client ID are correctly filled in the Application Form. The DP ID and Client ID provided in the Application Form should match with the DP ID and Client ID available in the Depository database, otherwise, the Application Form is liable to be rejected.
- (b) Applicants should ensure that the beneficiary account provided in the Application Form is active.
- (c) Applicants should note that on the basis of DP ID and Client ID as provided in the Application Form, the Applicant may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the Applicant as available on the records of the depositories. These Demographic Details may be used, among other things, for sending allocation advice and for other correspondence(s) related to an Issue.
- (d) Applicants are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Applicants’ sole risk.

4.1.4 FIELD NUMBER 4: APPLICATION DETAILS

- (a) The Issuer may mention Price in the Prospectus. However a prospectus registered with RoC contains one price.

- (b) Minimum And Maximum Application Size

i. For Retail Individual Applicants

The Application must be for a minimum of **6,000** Equity Shares. As the Application Price payable by the Retail Individual Applicants cannot exceed Rs. 2,00,000, they can make Application for only minimum Application size i.e. for **6,000** Equity Shares.

ii. For Other Applicants (Non Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares such that the Application Amount exceeds Rs. 2,00,000 and in multiples of 6,000 Equity Shares thereafter. An Application cannot be submitted for more than the Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application. In case of revision in Applications, the Non Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than Rs. 2,00,000 for being considered for allocation in the Non Institutional Portion. Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Prospectus.

- (c) **Multiple Applications:** An Applicant should submit only one Application Form. Submission of a second Application Form to either the same or to any other Application Collecting

Intermediary and duplicate copies of Application Forms bearing the same application number shall be treated as multiple applications and are liable to be rejected.

- (d) Applicants are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple applications:
- i. All applications may be checked for common PAN as per the records of the Depository. For Applicants other than Mutual Funds and FPI sub-accounts, Applications bearing the same PAN may be treated as multiple applications by an Applicant and may be rejected.
 - ii. For applications from Mutual Funds and FPI sub-accounts, submitted under the same PAN, as well as Applications on behalf of the PAN Exempted Applicants, the Application Forms may be checked for common DP ID and Client ID. In any such applications which have the same DP ID and Client ID, these may be treated as multiple applications and may be rejected.
- (e) The following applications may not be treated as multiple Applications:
- i. Applications by Reserved Categories in their respective reservation portion as well as that made by them in the Net Issue portion in public category.
 - ii. Separate applications by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Applications clearly indicate the scheme for which the Application has been made.
 - iii. Applications by Mutual Funds, and sub-accounts of FPIs (or FPIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.

4.1.5 FIELD NUMBER 5: CATEGORY OF APPLICANTS

- i. The categories of applicants identified as per the SEBI ICDR Regulations, 2009 for the purpose of Application, allocation and allotment in the Issue are RIIs, individual applicants other than RII's and other investors (including corporate bodies or institutions, irrespective of the number of specified securities applied for).
- ii. An Issuer can make reservation for certain categories of Applicants permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, applicants may refer to the Prospectus.
- iii. The SEBI ICDR Regulations, 2009 specify the allocation or allotment that may be made to various categories of applicants in an Issue depending upon compliance with the eligibility conditions. For details pertaining to allocation and Issue specific details in relation to allocation, applicant may refer to the Prospectus.

4.1.6 FIELD NUMBER 6: INVESTOR STATUS

- (a) Each Applicant should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.
- (b) Certain categories of Applicants, such as NRIs, FPIs and FVCIs may not be allowed to apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Applicants are requested to refer to the Prospectus for more details.
- (c) Applicants should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Application Form and Non-Resident Application Form.
- (d) Applicants should ensure that their investor status is updated in the Depository records.

4.1.7 FIELD 7: PAYMENT DETAILS

- (a) Please note that, providing bank account details in the space provided in the Application Form is mandatory and Applications that do not contain such details are liable to be rejected.

4.1.7.1 Payment instructions for Applicants

- (a) Applicants may submit the Application Form in physical mode to the Application Collecting Intermediaries.
- (b) Applicants should specify the Bank Account number in the Application Form.
- (c) Applicants should ensure that the Application Form is also signed by the ASBA Account holder(s) if the Applicant is not the ASBA Account holder;
- (d) Applicants shall note that that for the purpose of blocking funds under ASBA facility clearly demarcated funds shall be available in the account.
- (e) From one Bank Account, a maximum of five Application Forms can be submitted.
- (f) Applicants applying directly through the SCSBs should ensure that the Application Form is submitted to a Designated Branch of a SCSB where the ASBA Account is maintained. In case Applicant applying through Application Collecting Intermediary other than SCSB, after verification and upload, the Application Collecting Intermediary shall send to SCSB for blocking of fund.
- (g) Upon receipt of the Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form.
- (h) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Application Amount mentioned in the Application Form and may upload the details on the Stock Exchange Platform.
- (i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not upload such Applications on the Stock Exchange platform and such Applications are liable to be rejected.
- (j) Upon submission of a completed Application Form each ASBA Applicant may be deemed to have agreed to block the entire Application Amount and authorized the Designated Branch of the SCSB to block the Application Amount specified in the Application Form in the ASBA Account maintained with the SCSBs.
- (k) The Application Amount may remain blocked in the aforesaid ASBA Account until finalisation of the Basis of allotment and subsequent transfer of the Application Amount against the Allotted Equity Shares, if any, to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Application, as the case may be.
- (l) SCSBs applying in the Issue must apply through an ASBA Account maintained with any other SCSB; else their Applications are liable to be rejected.

SECTION 6: ISSUE PROCEDURE IN BOOK BUILT ISSUE

This being Fixed Price Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the EMERGE Platform of NSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).
- The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- For applications where the proportionate allotment works out to less than 6,000 equity shares the allotment will be made as follows:
 - Each successful Applicant shall be allotted 6,000 equity shares; and
 - The successful Applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
- If the proportionate allotment to an Applicant works out to a number that is not a multiple of 6,000 equity shares, the Applicant would be allotted Shares by rounding off to the nearest multiple of 6,000 equity shares subject to a minimum allotment of 6,000 equity shares.
- If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Applicants in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 6,000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Prospectus.
- The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Applicants as described below:

- i. As per Regulation 43 (4) of SEBI (ICDR), as the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
- ii. The balance net offer of shares to the public shall be made available for allotment to
 - individual applicants other than retail individual investors and
 - other investors, including corporate bodies/ institutions irrespective of number of shares applied for.
- iii. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

'Retail Individual Investor' means an investor who applies for shares of value of not more than Rs. 2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with NSE.

The Executive Director / Managing Director of NSE - the Designated Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

7.2 DESIGNATED DATE AND ALLOTMENT OF EQUITY SHARES

- (a) **Designated Date:** On the Designated Date, the SCSBs shall transfer the funds represented by allocation of Equity Shares into the Public Issue Account with the Bankers to the Issue.
- (b) **Issuance of Allotment Advice:** Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall upload the same on its website. On the basis of the approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the Allotment and credit of Equity Shares. Applicants **are advised to instruct their Depository Participant to accept the Equity Shares that may be allotted to them pursuant to the Issue.**

Pursuant to confirmation of such corporate actions, the Registrar will dispatch Allotment Advice to the Applicants who have been Allotted Equity Shares in the Issue.
- (c) The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract.
- (d) Issuer will ensure that: (i) the Allotment of Equity Shares; and (ii) initiate corporate action for credit of shares to the successful Applicants Depository Account will be completed within 4 Working Days of the Issue Closing Date. The Issuer also ensures the credit of shares to the successful Applicant's depository account is completed within one Working Day from the date of Allotment, after the funds are transferred from the Public Issue Account on the Designated Date.

SECTION 8: INTEREST AND REFUNDS

8.1 COMPLETION OF FORMALITIES FOR LISTING & COMMENCEMENT OF TRADING

The Issuer may ensure that all steps for the completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges are taken within 5 Working Days of the Issue Closing Date. The Registrar to the Issue may give instructions for credit to Equity Shares the beneficiary account with DPs, and dispatch the Allotment Advice within 5 Working Days of the Issue Closing Date.

8.2 GROUNDS FOR REFUND

8.2.1 NON RECEIPT OF LISTING PERMISSION

An Issuer makes an application to the Stock Exchange(s) for permission to deal in/list and for an official quotation of the Equity Shares. All the Stock Exchanges from where such permission is

sought are disclosed in Prospectus. The Designated Stock Exchange may be as disclosed in the Prospectus with which the Basis of Allotment may be finalised.

If the permissions to deal in and for an official quotation of the Equity Shares are not granted by any of the Stock Exchange(s), the Issuer may forthwith repay, without interest, all moneys received from the Applicants in pursuance of the Prospectus.

If such money is not repaid within eight days after the Issuer becomes liable to repay it, then the Issuer and every director of the Issuer who is an officer in default may, on and from such expiry of eight days, be liable to repay the money, with interest at such rate, as prescribed under Section 73 of the Companies Act, and as disclosed in the Prospectus.

8.2.2 MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level. This Issue is 100% underwritten. As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If the Issuer does not receive the subscription of 100% of the Issue through this offer document including devolvement of Underwriters within sixty days from the date of closure of the Issue, the Issuer shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after the Issuer becomes liable to pay the amount, the Issuer shall pay interest at a rate prescribed under section 73 of the Companies Act, 1956 (or the Company shall follow any other substitutional or additional provisions as has been or may be notified under the Companies Act, 2013).

8.2.3 MINIMUM NUMBER OF ALLOTTEES

The Issuer may ensure that the number of prospective Allottees to whom Equity Shares may be allotted may not be less than 50 failing which the entire application monies may be refunded forthwith.

8.3 MODE OF REFUND

Within 6 Working Days of the Issue Closing Date, the Registrar to the Issue may give instructions to SCSBs for unblocking the amount in ASBA Account on unsuccessful Application and also for any excess amount blocked on Application.

8.3.1 Mode of making refunds

The Registrar to the Issue may instruct the controlling branch of the SCSB to unblock the funds in the relevant ASBA Account for any withdrawn, rejected or unsuccessful ASBA applications or in the event of withdrawal or failure of the Issue.

8.4 INTEREST IN CASE OF DELAY IN ALLOTMENT OR REFUND

The Issuer may pay interest at the rate of 15% per annum /or demat credits are not made to Applicants or instructions for unblocking of funds in the ASBA Account are not done within the 4 Working days of the Issue Closing Date.

The Issuer may pay interest at 15% per annum for any delay beyond 6 days from the Issue Closing Date, if Allotment is not made.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“**FEMA**”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“**RBI**”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), has issued consolidated FDI Policy Circular of 2016 (“**FDI Policy 2016**”), which with effect from June 7, 2016, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. Further, DIPP has issued Press note 5, dated June 24, 2016 which introduces few changes in FDI Policy 2016. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2016 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“**RBI**”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2016, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2016, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FII, FPI, NRI, FVCI, LLPs, DRs and Investment Vehicles under Schedule 1, 2, 2A, 3, 6, 9, 10 and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49 % or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

Investment by FIIs under Portfolio Investment Scheme (PIS):

With regards to purchase/sale of share/s convertible debentures by a registered FII under PIS the total holding by each FII/SEBI approved sub-account of FII shall not exceed 10 % of the total paid-up equity capital or 10% of the paid-up value of each series of convertible debentures issued by an Indian company and the total holdings of all FIIs/sub-accounts of FIIs put together shall not exceed 24 % of paid-up equity capital or paid-up value of each series of convertible debentures. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body. For arriving at the ceiling on holdings of FIIs, shares/ convertible debentures acquired both through primary as well as secondary market will be included. However, the ceiling will not include investment made by FII through off-shore Funds, Global Depository receipts and Euro-Convertible Bonds. With regard to convertible debentures, these investments permitted to be made shall not exceed 5 % of the total paid-up equity capital or 5% of the paid-up value of each series of convertible debentures issued by an Indian Company, and shall also not exceed the over-all ceiling limit of 24 % of paid-up equity capital or paid up value of each series of convertible debentures.

Investment by Registered Foreign Portfolio Investor (RFPI) under Foreign Portfolio Investment (FPI) Scheme

With respect to purchase/sale of shares or convertible debentures or warrants, a RFPI registered in accordance with SEBI (FPI) Regulations, 2014 as amended in regular intervals may purchase shares or convertible debentures or warrants of an Indian company under FPI scheme. The total holding by each RFPI shall be below 10 % of the total paid-up equity capital or 10 % of the paid-up value of each series of convertible debentures issued by an Indian company and the total holdings of all RFPI put together shall not exceed 24 % of paid-up equity capital or paid up value of each series of convertible debentures. The said limit of 24 % will be called aggregate limit. However, the aggregate limit of 24 % may be increased up to the sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its General Body. For arriving at the ceiling on holdings of RFPI, shares or convertible debentures or warrants acquired both through primary as well as secondary market will be included. However, the ceiling will exclude investment made by RFPI through of off-shore Funds, Global Depository Receipts and Euro-Convertible Bonds but include holding of RFPI and deemed RFPI in the investee company for computation of 24 % or enhanced limit.

Investment by NRI on repatriation and non-repatriation basis under PIS:

With respect to purchase/sale of shares and/or convertible debentures by a NRI on a stock exchange in India on repatriation and/or non-repatriation basis under PIS is allowed subject to certain conditions

under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2000. Further, with regard to limits:

- the paid-up value of shares of an Indian company, purchased by each NRI both on repatriation and on non-repatriation basis, does not exceed 5 % of the paid-up value of shares issued by the company concerned;
 - the paid-up value of each series of convertible debentures purchased by each NRI both on repatriation and non-repatriation basis does not exceed 5 % of the paid-up value of each series of convertible debentures issued by the company concerned;
 - the aggregate paid-up value of shares of any company purchased by all NRIs does not exceed 10 % of the paid up capital of the company and in the case of purchase of convertible debentures
 - the aggregate paid-up value of each series of debentures purchased by all NRIs does not exceed 10 % of the paid-up value of each series of convertible debentures;
- However, the aggregate ceiling of 10 % may be raised to 24 % if a special resolution to that effect is passed by the General Body of the Indian company concerned.

Investment by NRI on Non-repatriation basis

As per current FDI Policy 2016, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase and sale of shares and convertible debentures or warrants by a NRI on Non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act), except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

Further, no offer to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the “Prospectus Directive”) has been or will be made in respect of the Issue in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Issue.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorised. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.
