Overall economic resilience

Ok Moody's also pointed out that India's resilience to environmental and social risks was low, as weak balance sheets weigh on the country's capacity to respond to such risks. Climate-related risks are expected to worsen for India, the World Bank said earlier.

While Moody's noted that an improvement in fiscal consolidation and debt affordability could lead to an upgrade, "an escalation of political tensions and/or a further weakening of checks and balances that would undermine India's long-term growth potential" along with resurgence of financial sector stress, could contribute to a downgrade. Moody's also said that constraints on delivering significant improvement in manufacturing and job creation could limit potential growth. "The curtailment of civil society and political dissent, compounded by rising sectarian tensions, support a weaker assessment of political risk and the quality of institutions," Moody's stated, pointing to the Manipur incident.

Using all Platforms to Flag Issue of Non-Tariff Barriers: Commerce Secy

Our Bureau

New Delhi: Commerce Secretary Sunil Barthwal Friday said that India is using all multilateral and bilateral platforms, including G20, to flag concerns on non-tariff barriers (NTBs) impacting free flow of trade.

New Delhi has already raised its concerns on the European Union's carbon border adjustment mechanism (CBAM) at the World Trade Organization (WTO).

"Definitely, we are discussing those NTBs and we are also discussing how to find a good solution, how to find a platform where we can continue on these issues and we can understand these issues," Barthwal said.

His statement comes ahead of the two-day G20 Trade and Investment Ministerial Meeting (TMM) on August 24-25 in Jaipur.

Emphasizing that "all platforms will be used" to discuss these barriers, he said that the CBAM will impact exports of certain sections of the Indian industry. "We will be discussing these issues multilaterally as well as bilaterally wherever
